Individual

Tennessee. Originally, it was projected that the Individual tax product would update the Form RVR-00104, Tennessee Estimated Franchise and Excise Tax Payments Worksheet, on this release. This update was to adjust the calculation of Line 1 (Current year total franchise and excise taxes) and Line 3 (Prior year total franchise and excise taxes) to match the state clarification. Due to complications, this has been moved to release 2022-4.2, which will be available on August 27th. Until this release is available, overrides will need to be used in the Individual tax product.

S Corporation & Partnership

Kentucky. Form 740-PTET is not available for electronic filing with this release as originally projected. Due to additional testing and approval from the state, diagnostic 39516 remains in the software. Electronic filing is projected to be available with release 2022-4.2, which will be available on August 27th.

West Virginia. West Virginia [Senate Bill 151](#) became effective on June 8, 2023. This bill created an elective pass-through entity tax retroactive to tax year 2022. An election must be made prior to filing the entity pass-through return using form EPT-100ELF, Election for Elective Pass-Through Entity. The election can be made between now and September 15, 2023. No electronic filing will be available for this form as it must be filed through the West Virginia portal or mailed to the address on the form. This [website](#) provides additional information from the state on this election, filing of the form, as well as any estimate payments.

For the S Corporation tax product, we are awaiting approval from the state. Once that approval is received, the “Pending Approval” watermark will be removed and available to file. For the Partnership tax product, we are still reviewing the form through our quality assurance process and project to have it available on release 2022-4.2 which will be available on August 27th. It also has the same watermark on it.

Note: No transmittal/filing instructions are available for this form and it should be filed through the West Virginia portal or mailed to the address on the form.

Fiduciary

Federal. The Fiduciary tax product has been enhanced by now including Form 5471, Information Return of U.S. Persons with Respect to Certain Foreign Corporations. The form is available for paper and electronic filing. Currently, help/cross references and interaction with Form 8858 are not available with this release but will be coming on a later release.

Note: The print collation issue that is currently present in the other entities will also be present when printing multiple 5471's from the Fiduciary tax product. The print collation issue is projected to be resolved on release 2023-1.0 which is scheduled to be available on December 3rd.
