Tax Updates

Individual

Tennessee – After additional clarification from the state, Form RVR-00104, Tennessee Estimated Franchise and Excise Tax Payments Worksheet, has been updated to leave Line 1 (Current year total franchise and excise taxes) blank. Our default has also been updated to include the current year tax on Line 3 (Prior year total franchise and excise taxes). If an amount is wanted on Line 1, an entry must be made. This [Knowledge Base](#) article has been updated to include the details of how to adjust Line 1.

Individual and Partnership

New York – New York has divided the MCTMT into two zones that are now taxed at different rates with a change that came mid-August. This change will affect the IT-2105, Estimated Tax Payment Voucher for Individuals, as well as Form IT-2658-MTA, Report of Estimated Tax for Nonresident Individual Partners and Shareholders. This change is retroactive to the previous quarter estimates. However, per the state, no penalty will apply to any shortage if the shortfall is included in the September 15th payment. For more information on the change that was made by the state, please review the information on their website.

For Individual returns, a diagnostic has been added on this release to alert users of the change. If the IT-2105 estimate needs to be updated, please use the overrides on New York > Estimates / Underpayments > Estimate Preparation > Voucher - Overrides.

For Partnership returns, the following overrides are available:

Form IT-2105. New York > Payments/Penalties > Estimates and Application of Overpayment - MCTMT Group Return > Voucher Overrides.

Form IT-2658-MTA. New York > Payments/Penalties > Estimates and Application of Overpayment > MTA Voucher Overrides. The partner's ownership percentage of the IT-2658 will be applied to the amount entered in these override fields to determine the amount of estimated MCTMT paid on behalf of the partner.

Corporation, S Corporation, Partnership, & Exempt Organization

Disaster Extension Input – The following state has been updated to include the disaster extension enhancement that was previously released. Please see this [Knowledge Base](#) article for additional detail as to what is available with this enhancement.

West Virginia – We have received form PTE EK-1, Schedule of WV Partnership/Shareholder/Member Beneficiary Elective Pass-through Entity Income Credit and are currently working on adding it to the software. We are projecting to have it available for paper filing by release 2022-4.3, which will be available on September 24th. If you need this form before then, we suggest using the state’s [website](#) as it provides additional information about the election filing, filing of additional forms, as well as any estimate payments that may need to be made. Please note that the state has indicated that Form EPT-100 (Return) must be filed through the portal. At this time, we are not planning on adding it to the 2022 tax software.

Corporation, S Corporation, & Exempt Organization

Florida. It was recently discovered that the Estimated Tax Worksheet located on Page 6 of the Form F-1120, Florida Corporate Income/Franchise Tax Return, was not updated to the latest form provided by the state. This omission affects the estimate tax rate on Line 4 of this worksheet. Currently the form and system is calculating at a rate of 4.458% when it should be 5.5%. We will be updating the affected tax products on release 2022-4.3, scheduled to be available on September 24th. Until this release is available, we suggest that you override the net estimated tax at Payments/Penalties/Estimates > Estimates and Application of Overpayment > State Estimates and Application of Overpayment with a state code of FL. To adjust the remaining quarters to account for the additional tax, please use Payments/Penalties/Estimates > Estimates and Application of Overpayment > State Estimates and Application of Overpayment > Detail - Number of next year installments unpaid if less than required & amount paid toward next year estimate.

Electronic Filing Updates
