## 2018 HUD MULTIFAMILY HOUSING PROGRAMS OVERVIEW FOR KNOWLEDGE COACH USERS

#### **PURPOSE**

This document is published for the purpose of communicating, to users of the toolset, updates and enhancements included in the current version. This document is not, and should not be used as an audit program to update the audit documentation of an engagement started in a previous version of this product.

## WORKPAPER UPDATES AND ROLL FORWARD NOTES

#### **General Roll Forward Note:**

You must be the current editor of all Knowledge Coach workpapers to update to the latest content, and you must be the current editor upon opening the updated workpaper for the first time to ensure you see the updated workpaper.

The **2018** *Knowledge-Based Audits of HUD Multifamily Housing Programs* have been updated to help auditors conduct efficient and effective audit engagements in accordance with U.S. GAAS, GAGAS, and the *HUD Audit Guide*, and to take into account the latest literature, standards, and guidance, including AICPA Statement on Auditing Standards (SAS) No. 133, *Auditor Involvement with Exempt Offering Documents*. The 2018-2019 tools include links to detailed analysis related to the steps and processes discussed in the workpapers. Many new tips and examples have been incorporated. Also included are revised financial statement disclosures checklists that provide a centralized resource of the required and recommended U.S. GAAP disclosures and key presentation items currently in effect, using the style referencing under the FASB Accounting Standards Codification<sup>TM</sup>.

The 2018 edition of Knowledge-Based Audits of HUD Multifamily Housing Programs includes the following updates:

### Important Information about Updating to the 2018 KC titles posted after July 2018

Beginning with the 2018 KBA Commercial title, there are significant changes to the KBA 40X ALC series workpapers that firms should review prior to content update through roll forward or Update Knowledge Coach Workpapers. Many of the activity controls have changed and will automatically reset on content update. Therefore, if you do plan to use the update knowledge coach content feature, consider publishing these workpapers before you update and re-evaluate your responses to the changed content. These changes were made to better describe true control <u>objectives</u> as opposed to control <u>activities</u>. We feel these changes make the tools more closely align with how internal control environments work and therefore easier to use and understand.

Generally	Accepted Accounting Principles (ASC 105)	
Deleted	<i>Note:</i> The transition disclosures for adoption of a new accounting standard in items 1 and 2 below are required by. The amendments in represent changes to clarify the Codification, correct unintended application of guidance, or make minor improvements to the Codification that are not expected to have a significant effect on current accounting practice. In addition, some of the amendments are intended to make the Codification easier to understand and easier to apply by eliminating inconsistencies, providing needed clarifications, and improving the presentation of guidance in the Codification.	
	Transition guidance varies based on the amendments. The amendments that require transition guidance are effective for all entities for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2015. Early adoption is permitted, including adoption in an interim period. All other amendments were effective upon issuance of the ASU (i.e., June 12, 2015).	
	1. Has the cumulative effect of a change in accounting principle, if any, resulting from the amendments in Accounting Standards Update No. 2015-10, <i>Technical Corrections and Improvements</i> , been presented separately and recognized as an adjustment to the opening balance of retained earnings (or other appropriate components of equity or net assets in the balance sheet) for the period of adoption? ( <i>Note:</i> The cumulative-effect adjustment is the difference between the amounts recognized in the balance sheet before initial application of the applicable amendments and the amounts recognized in the balance sheet at initial application of the applicable amendments.) (ASC 105-10-65-23)	
	2. Have the nature of the change and the reason for the change been disclosed in the period of adoption of the applicable amendments? (ASC 105-10-65-3)	
Added	<i>Note:</i> The "Generally Accepted Accounting Principles" Topic in the Codification does not prescribe any specific or incremental disclosure requirements as the structure in the Codification generally results in the inclusion of those requirements and related guidance in other Topics. For disclosure requirements prescribed in other Topics, refer to the applicable sections in this checklist for further guidance.	
Presentati	ion of Financial Statements (ASC 205)	
Going Cor	ncern	
Deleted	Note: The presentation and disclosure requirements in items 1 through 6 below are prescribed by ASU No. 2014-15, Presentation of Financial Statements—Going Concern (Subtopic 205-40): Disclosure of Uncertainties about an Entity's Ability to Continue as a Going Concern. These presentation and disclosure requirements are effective for annual periods ending after December 15, 2016, and interim periods within annual periods beginning after December 15, 2016. Early adoption

Change	is permitted for annual or interim reporting periods for which the financial statements have not previously been issued. (ASC 205-40-65-1)	Roll Pol ward and Optiate Content Considerations
	Prior to the issuance of ASU No. 2014-15, there was no guidance in U.S. GAAP about management's responsibility to evaluate whether there is substantial doubt about an entity's ability to continue as a going concern or to provide related disclosures in notes to financial statements. U.S. auditing standards and federal securities laws require that an auditor evaluate whether there is substantial doubt about an entity's ability to continue as a going concern for a reasonable period of time not to exceed one year beyond the date of the financial statements being audited. Auditing standards also require auditors to consider the possible financial statement effects, including the adequacy of disclosures on uncertainties about the entity's ability to continue as a going concern for a reasonable period of time pursuant to AU-C Section 570, <i>The Auditor's Consideration of an Entity's Ability to Continue as a Going Concern</i> , or the PCAOB's AS 2415, <i>Consideration of an Entity's Ability to Continue as a Going Concern</i> . The SEC also has guidance on disclosures that it expects from an entity when an auditor's report includes an explanatory paragraph that reflects substantial doubt about an entity's ability to continue as a going concern for a reasonable period of time (The Codification of Financial Reporting Policies, Section 607.02). Therefore, prior to the effective date of ASU No. 2014-15 and for entities that have not elected early adoption of ASU No. 2014-15, the disclosure requirements in items 7 and 8 below should be followed.	
	<ul> <li>7. If the auditor concludes, after considering management's plans, that there is substantial doubt about the entity's ability to continue as a going concern for a period of time not to exceed one year beyond the balance-sheet date, do the financial statements include adequate disclosures such as the following (AU-C 570.12 and AU-C 570.A4; PCAOB AS 2415.10):</li> <li>a. Pertinent conditions and events giving rise to the assessment of substantial doubt about the entity's ability to continue as a going concern for a period of time not to exceed one year beyond the balance-sheet date?</li> <li>b. The possible effects of such conditions and events?</li> <li>c. Management's evaluation of the significance of those conditions and events and any mitigating factors?</li> <li>d. Possible discontinuance of operations?</li> <li>e. Management's plans (including relevant prospective financial information)?</li> <li>f. Information about the recoverability or classification of recorded asset amounts or the amounts or classification of liabilities?</li> <li>8. When, primarily because of the auditor's consideration of management's plans, the auditor concludes that substantial doubt about the entity's ability to continue as a going concern for a period of time not to exceed one year from the balance-sheet date is alleviated, do the financial statements include adequate disclosures such as the following (AU-C 570.13; PCAOB AS 2415.11):</li> </ul>

Modified	Note: The requirements in this section do not apply to certain mandatorily redeemable financial instruments and certain mandatorily redeemable noncontrolling interests as follows (ASC 480-10-65-1):  • Certain mandatorily redeemable financial instruments of nonpublic entities that are not SEC registrants. The classification, measurement, and disclosure provisions do not apply to mandatorily redeemable financial instruments of nonpublic entities, other than those that are mandatorily redeemable on fixed dates and for amounts that either are fixed or are determined by reference to an external index (e.g., interest rate index, currency index). For example, the requirements do not apply to shares of nonpublic entities that are required to be redeemed upon the death of the shareholder.  • Certain mandatorily redeemable noncontrolling interests of all entities, public and nonpublic:  • For mandatorily redeemable noncontrolling interests that would not have to be classified as liabilities by the subsidiary under the "only upon liquidation" exception in ASC paragraphs 480-10-25-4 and 480-10-25-6, but would be classified as liabilities by the parent in consolidated financial statements, the classification and measurement provisions do not apply.  • For other mandatorily redeemable noncontrolling interests that were issued before November 5, 2003, the measurement provisions do not apply, both for the parent in consolidated financial statements and for the subsidiary that issued the instruments that result in the mandatorily redeemable noncontrolling interest. However, the classification provisions apply. In addition, for those instruments, the measurement guidance for redeemable shares and noncontrolling interests in other predecessor literature (e.g., in ASC paragraph 480-10-599-3A) continues to apply.  • All public entities and nonpublic entities that are SEC registrants with mandatorily redeemable noncontrolling interests subject to the classification and measurement scope exception discussed above are required to foll

Added	Note: The presentation and disclosure requirements in items 1 through 3 below are prescribed by ASU No. 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities, which is effective for public business entities for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. For all other entities, the requirements are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted, including adoption in an interim period. (ASC 815-20-65-3)	
	If an entity early adopts <u>ASU No. 2017-12</u> in an interim period, any adjustments should be reflected as of the beginning of the fiscal year that includes that interim period (i.e., the initial application date).	
	For cash flow hedges and net investment hedges existing (i.e., the hedging instrument has not expired, been sold, terminated, or exercised or the entity has not removed the designation of the hedging relationship) as of the date of adoption, an entity should apply ASU No. 2017-12 related to the elimination of the separate measurement of ineffectiveness by means of a cumulative-effect adjustment to accumulated other comprehensive income with a corresponding adjustment to the opening balance of retained earnings as of the initial application date.	
Added	Note: An entity may elect any of the following items upon adoption of ASU No. 2017-12:  a. For a fair value hedge of interest rate risk existing as of the date of adoption, an entity may modify the measurement methodology for a hedged item in accordance with either ASC paragraph 815-20-25-6B or ASC paragraph 815-25-35-13 without dedesignation of the hedging relationship. The cumulative basis adjustment carried forward should be adjusted to an amount that reflects what the cumulative basis adjustment would have been at the date of adoption had the modified measurement methodology been used in all past periods in which the hedging relationship was outstanding. When making this election, the benchmark rate component of the contractual coupon cash flows should be determined as of the hedging relationship's original inception date. The cumulative effect of applying this election should be recognized as an adjustment to the basis adjustment of the hedged item recognized on the balance sheet with a corresponding adjustment to the opening balance of retained earnings as of the initial application date.  b. For the fair value hedges of interest rate risk for which an entity modifies the measurement methodology for the hedged item based on the benchmark rate component of the contractual coupon cash flows in accordance with item 1 above, an entity may elect to dedesignate a portion of the hedged item and reclassify the basis adjustment associated with the portion of the hedged item dedesignated to the opening balance of retained earnings as of the initial application date.  c. For fair value hedges existing as of the date of adoption in which foreign exchange risk is the hedged risk or one of the hedged risks and a currency swap is the hedging

	instrument, an entity may, without dedesignation, modify its hedge documentation to exclude the cross-currency basis spread component of the currency swap from the assessment of hedge effectiveness and recognize the excluded component through an amortization approach. The cumulative effect of applying this election should be recognized as an adjustment to accumulated other comprehensive income with a corresponding adjustment to the opening balance of retained earnings as of the initial application date.	
	d. For hedges existing as of the date of adoption that exclude a portion of the hedging instrument from the assessment of effectiveness, an entity may modify the recognition model for the excluded component from a mark-to-market approach to an amortization approach without dedesignation of the hedging relationship. The cumulative effect of applying this election should be recognized as an adjustment to accumulated other comprehensive income with a corresponding adjustment to the opening balance of retained earnings as of the initial application date.	
	e. An entity may modify documentation without dedesignating an existing hedging relationship to specify the following:	
	1) For hedging relationships that currently use a quantitative method to assess effectiveness, that subsequent prospective and retrospective effectiveness assessments should be performed qualitatively in accordance with ASC paragraph 815-20-25-3(b)(2)(iv)(03)	
	2) For hedging relationships that currently use the shortcut method to assess effectiveness, the quantitative method that would be used to perform assessments of effectiveness in accordance with ASC paragraph 815-20-25-117A if the entity determines at a later date that use of the shortcut method was not or no longer is appropriate.	
	f. For cash flow hedges existing as of the date of adoption in which the hedged risk is designated as the variability in total cash flows that meet the requirements to designate as the hedged risk the variability in cash flows attributable to changes in a contractually specified component or a contractually specified interest rate, an entity may:	
	<ol> <li>Modify the hedging relationship, without dedesignation, to specify the hedged risk is the variability in the contractually specified component or contractually specified interest rate</li> </ol>	
	2) Create the terms of the instrument used to estimate changes in value of the hedged risk (either under the hypothetical derivative method or another acceptable method in ASC Subtopic 815-30) in the assessment of effectiveness on the basis of market data as of the inception of the hedging relationship

	3) Consider any ineffectiveness previously recognized on the hedging relationship as part of the transition adjustment in accordance with the paragraph above the note to item 1 above regarding cash flow hedges and net investment hedges.  g. An entity may reclassify a debt security from held-to-maturity to available-for-sale if the debt security is eligible to be hedged under the last-of-layer method in accordance with ASC paragraph 815-20-25-12A. Any unrealized gain or loss at the date of the transfer should be recorded in accumulated other comprehensive income in accordance with ASC paragraph 320-10-35-10(c).  Note: For private companies that are not financial institutions as described in ASC paragraph 942-320-50-1 and not-for-profit entities (except for not-for-profit entities that have issued, or are a conduit bond obligor for, securities that are traded, listed, or quoted on an exchange or an over-the-counter market), the elections in items 1 through 7 above should be determined before the next interim (if applicable) or annual financial statements are available to be issued.  Note: For all other entities, the elections in items 1 through 7 above should be determined before the first quarterly effectiveness assessment date after the date of adoption.  Note: For fair value hedges existing as of the date of adoption in which the hedged item is a tax-exempt financial instrument, the hedged risk may be modified to interest rate risk related to the Securities Industry and Financial Markets Association (SIFMA) Municipal Swap Rate. The modification should be considered a dedesignation and immediate redesignation of the hedging relationship in this situation, the cumulative basis adjustment of the hedged item from the dedesignated hedging relationship should be amortized to earnings on a level-yield basis over a period of time based on the applicable requirements in other ASC Topics.  Note: An entity is not required to apply the guidance in ASC paragraph 815-20-25-81 when comparing hedging relationships executed be

	Hedging relationships executed before the date of adoption for which the recognition of excluded components was not amended to an amortization approach as permitted by item 4 above, and hedging relationships executed after the date of adoption for which an amortization approach is elected in accordance with ASC paragraph 815-20-25-83A.  Note: On a prospective basis only for existing hedging relationships on the date of adoption (in all interim periods and fiscal years ending after the date of adoption), an entity should:	
	<ul> <li>Present the entire change in the fair value of the hedging instrument in the same income statement line item as the earnings effect of the hedged item when the hedged item affects earnings (with the exception of amounts excluded from the assessment of hedge effectiveness in a net investment hedge) in accordance with ASC paragraphs 815-20-45-1A and 815-20-45-1C.</li> </ul>	
	Disclose the items in ASC Subtopic 815-10 as amended by ASU No. 2017-12 (these items are addressed in this section below).	
	1. For qualifying fair value and cash flow hedges, have the following been presented in earnings in the same income statement line item that is used to present the earnings effect of the hedged item (ASC 815-20-45-1A):	
	a. The change in the fair value of the hedging instrument that is included in the assessment of hedge effectiveness?	
	b. Amounts excluded from the assessment of hedge effectiveness in accordance with ASC paragraphs 815-20-25-83A through 25-83B?	
	<ul><li>Note: See ASC paragraphs 815-20-55-79W through 55-79AD for related implementation guidance.</li><li>2. For qualifying net investment hedges, have the amounts reclassified from accumulated other</li></ul>	
	comprehensive income to earnings been presented in the same income statement line item that	
	is used to present the earnings effect of the hedged net investment? (ASC 815-20-45-1C)	
	3. Has the net gain or loss on derivative instruments designated and qualifying as fair value or	
	cash flow hedging instruments that are reported in comprehensive income been displayed as a separate classification within other comprehensive income? (ASC 815-20-45-3)	
Added	Note: The presentation and disclosure requirements in items 5b and 5c above have been superseded by the amendments in ASU No. 2017-12, Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities, which is effective for public business	
	entities for fiscal years beginning after December 15, 2018, and interim periods within those fiscal	
	years. For all other entities, the requirements are effective for fiscal years beginning after December	
	15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Early adoption is permitted, including adoption in an interim period. Thereafter, the presentation and disclosure requirements in items 5d through 5j below should be followed. (ASC 815-20-65-3)	
Added	The total amount of each income and expense line item presented in the income statement in which the results of fair value or cash flow hedges are recorded?	
Added	For qualifying fair value and cash flow hedges, the line items and amount of the gains and losses on derivative instruments (and nonderivative instruments designated and qualifying as hedging

Added	Derivative instruments (and nonderivative instruments) designated and qualifying as hedging instruments in fair value hedges and related hedged items designated and qualifying in fair value hedges?	
Added	The gains and losses on derivative instruments designated and qualifying in cash flow hedges included in the assessment of effectiveness that were recognized in other comprehensive income during the current period?	
Added	Amounts excluded from the assessment of effectiveness that were recognized in other comprehensive income during the period for which an amortization approach is applied in accordance with ASC paragraph 815-20-25-83A?	
Added	The gains and losses on derivative instruments designated and qualifying in cash flow hedges that are included in the assessment of effectiveness and recorded in accumulated other comprehensive income during the term of the hedging relationship and reclassified into earnings during the current period?	
Added	The portion of gains and losses on derivative instruments designated and qualifying in fair value and cash flow hedges representing the amount, if any, excluded from the assessment of hedge effectiveness that is recognized in earnings?	
	<i>Note:</i> When disclosing this amount, an entity should disclose separately amounts that are recognized in earnings through an amortization approach in accordance with ASC paragraph 815-20-25-83A and amounts recognized through changes in fair value in earnings in accordance with ASC paragraph 815-20-25-83B.	
Added	The gains and losses reclassified into earnings as a result of the discontinuance of cash flow hedges because it is probable that the original forecasted transactions will not occur by the end of the originally specified time period or within the additional period of time discussed in ASC paragraphs 815-30-40-4 through 40-5?	
Added	The amount of net gain or loss recognized in earnings when a hedged firm commitment no longer qualifies as a fair value hedge?	
Added	For derivative instruments not designated or qualifying as hedging instruments, has disclosure been made of the line items and amount of the gains and losses on derivative instruments reported either in the income statement or balance sheet (e.g., gains and losses initially recognized in other comprehensive income), with separate presentation of the gains and losses by type of contract (e.g., interest rate contracts, foreign exchange contracts, equity contracts, commodity contracts, credit contracts, and other contracts)?	
	For qualifying net investment hedges, has disclosure been made of the line items and amount of the gains and losses on derivative instruments (and such nonderivative instruments) and related hedged items reported either in the income statement or balance sheet (e.g., gains and losses initially

Fair Value	e Measurement (ASC 820)	
Added	Note: The presentation and disclosure requirements in item 1 below have been superseded by the amendments in ASU No. 2018-13, Fair Value Measurement (Topic 820)—Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement, which is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Thereafter, the presentation and disclosure requirements in item 2 below should be followed.	
	Early adoption is permitted (an entity is permitted to early adopt the removed or modified disclosures in ASC paragraph 820-10-50-2(bb), (c)(3), (f), and (g), ASC paragraph 820-10-50-2G, and ASC paragraph 820-10-50-6A(b) and (e) and adopt the additional disclosures in ASC paragraph 820-10-50-2(bbb)(2)(i) and (d) upon their effective date), including adoption in any interim period for:	
	Public business entities for periods in which financial statements have not yet been issued, and	
	<ol> <li>All other entities for periods in which financial statements have not yet been made available for issuance.</li> </ol>	
	An entity should apply ASU No. 2018-13 retrospectively to all periods presented, except for the changes in unrealized gains and losses required by ASC paragraph 820-10-50-2(d), the range and weighted-average disclosure required by ASC paragraph 820-10-50-2(bbb)(2)(i), and the narrative description of measurement uncertainty in accordance with ASC paragraph 820-10-50-2(g) that are required to be applied prospectively for only the most recent interim or annual period presented in the initial fiscal year of adoption. 	related to the financial accounting and reporting for goodwill after its initial recognition in a business combination. (ASC 350-20-50-3 and 50-7)	
	<i>Note:</i> A nonpublic entity is not required to disclose the quantitative information about significant unobservable inputs used in fair value measurements categorized within Level 3 of the fair value hierarchy required by ASC paragraph 820-10-50-2(bbb) that relate to the financial accounting and reporting for an indefinite-lived intangible asset after its initial recognition. (ASC 350-30-50-3A)	
Added	Note: The presentation and disclosure requirements in item 1 above have been superseded by the amendments in ASU No. 2018-13, Fair Value Measurement (Topic 820)—Disclosure Framework—Changes to the Disclosure Requirements for Fair Value Measurement, which is effective for fiscal years, and interim periods within those fiscal years, beginning after December 15, 2019. Added	<i>Note:</i> For purposes of the following disclosures in item 2 below, recurring fair value measurements of assets or liabilities are those that other Topics require or permit in the balance sheet at the end of each reporting period. Nonrecurring fair value measurements of assets or liabilities are those that other Topics require or permit in the balance sheet in particular circumstances (e.g., when a reporting entity measures a long-lived asset or disposal group classified as held for sale at fair value less costs to sell in accordance with ASC Topic 360, <i>Property, Plant, and Equipment</i> , because the asset's fair value less costs to sell is lower than its carrying amount). (ASC 820-10-50-2)	
Added	For purposes of the following disclosures in item 2 below, the reporting entity should disclose information that provides users of financial statements with information about assets and liabilities measured at fair value in the balance sheet or disclosed in the notes to financial statements, including: (a) the valuation techniques and inputs that a reporting entity uses to arrive at its measures of fair value, including judgments and assumptions that the entity makes; (b) the uncertainty in the fair value measurements as of the reporting date; and (c) how changes in fair value measurements affect an entity's performance and cash flows. When complying with the disclosure requirements of Subtopic 820-10, a reporting entity should consider all the following: (a) the level of detail necessary to satisfy the disclosure requirements; (b) how much emphasis to place on each of the various requirements; (c) how much aggregation or disaggregation to undertake; and (d) whether users of financial statements need additional information to evaluate the quantitative information disclosed. (ASC 820-10-50-1C and 50-1D	
Added	The quantitative disclosures in items 2 through 6 below should be presented in a tabular format. (ASC 820-10-50-8)

Added	For each class of assets and liabilities measured at fair value in the balance sheet after initial recognition, have the following disclosures been made (820-10-50-2):	
	<i>Note:</i> Classes of assets and liabilities should be determined based on: (a) the nature, characteristics, and risks of the asset or liability; and (b) the level of the fair value hierarchy within which the fair value measurement is categorized. In addition, sufficient information should be provided to permit reconciliation of the classes of assets and liabilities to the line items presented in the balance sheet. (820-10-50-2B and 2C)	
Added	The fair value measurement at the end of the reporting period for recurring fair value measurements and at the relevant measurement date for nonrecurring fair value measurements?  Note: For nonrecurring measurements estimated at a date during the reporting period other than the	
	end of the reporting period, a reporting entity should clearly indicate that the fair value information presented is not as of the period's end as well as the date or period that the measurement was taken.	
Added	The reasons for the measurement for nonrecurring fair value measurements?	
Added	The level of the fair value hierarchy within which the fair value measurements are categorized in their entirety (Level 1, 2, or 3) for recurring and nonrecurring fair value measurements?	
Added	A description of the valuation technique(s) and the inputs used in the fair value measurement for recurring and nonrecurring fair value measurements categorized within Level 2 and Level 3 of the fair value hierarchy?	
Added	The change in either or both a valuation approach and a valuation technique, or use of an additional valuation technique, and the reasons for such change or addition, for recurring and nonrecurring fair value measurements categorized within Level 2 and Level 3 of the fair value hierarchy?	
Modified	Quantitative information about the significant unobservable inputs used in the fair value measurement for recurring and nonrecurring fair value measurements categorized within Level 3 of the fair value hierarchy?	Will reset on roll forward

	Note: A reporting entity should provide the range and weighted average of significant unobservable inputs used to develop Level 3 fair value measurements. A reporting entity should disclose how it calculated the weighted average (e.g., weighted by relative fair value). For certain unobservable inputs, a reporting entity may disclose other quantitative information, such as the median or arithmetic average, in lieu of the weighted average, if such information would be a more reasonable and rational method to reflect the distribution of unobservable inputs used to develop the Level 3 fair value measurement. An entity does not need to disclose its reason for omitting the weighted average in these cases. A nonpublic entity is not required to provide the information required by this Note. (ASC 820-10-50-2(bbb)_and_ASC 820-10-50-2F)  Note: A reporting entity is not required to provide this disclosure for fair value measurements related to the financial accounting and reporting for goodwill after its initial recognition in a business combination. (ASC 350-20-50-3 and 50-7	
Added	<i>Note:</i> A nonpublic entity is not required to disclose the quantitative information about significant unobservable inputs used in fair value measurements categorized within Level 3 of the fair value hierarchy required by ASC paragraph 820-10-50-2(bbb) that relate to the financial accounting and reporting for an indefinite-lived intangible asset after its initial recognition. (ASC 350-30-50-3A)	
Added	For recurring fair value measurements categorized within Level 3 of the fair value hierarchy, a reconciliation from the opening balances to the closing balances, disclosing separately changes during the period attributable to the following:	
Added	Total gains or losses for the period recognized in earnings, and the line item(s) in the income statement in which those gains or losses are recognized?	
Added	Total gains or losses for the period recognized in other comprehensive income, and the line item(s) in other comprehensive income in which those gains or losses are recognized?	
Added	Purchases, sales, issues, and settlements (each of those types of changes disclosed separately)?	
Added	The amounts of any transfers into or out of Level 3 of the fair value hierarchy?	
Added	The reasons for those transfers?  ( <i>Note:</i> Transfers into Level 3 should be disclosed and discussed separately from transfers out of Level 3).	
Added	In lieu of the disclosures in item 2(g) above, has a nonpublic entity disclosed separately changes during the period attributable to the following (ASC 820-10-50-2G):	
Added	Purchases and issues (each of those types of changes disclosed separately)?	
Added	The amounts of any transfers into or out of Level 3 of the fair value hierarchy and the reasons for those transfers?	
	<i>Note</i> : Transfers into Level 3 should be disclosed and discussed separately from transfers out of Level 3.	

Type of Change	Description of Change	Roll Forward and Update Content Considerations
Added	For recurring fair value measurements categorized within Level 3 of the fair value hierarchy, the amount of the total gains or losses for the period in 2 (g)(1) above included in earnings and in 2(g)(2) included in other comprehensive income that is attributable to the change in unrealized gains or losses relating to those assets and liabilities held at the end of the reporting period, and the line item(s) in the statement of comprehensive income in which those unrealized gains or losses are recognized?	
	Note: A nonpublic entity is not required to disclose this information. (ASC 820-10-50-2F)	
Added	For recurring fair value measurements categorized within Level 3 of the fair value hierarchy, a narrative description of the uncertainty of the fair value measurement from the use of significant unobservable inputs if those inputs reasonably could have been different at the reporting date. For example, how a change in those significant unobservable inputs to a different amount might result in a significantly higher or lower fair value measurement at the reporting date? ( <i>Note:</i> A nonpublic entity is not required to disclose this information.)	
	<i>Note:</i> If there are interrelationships between those inputs and other unobservable inputs used in the fair value measurement, a reporting entity should also provide a description of those interrelationships and of how they might magnify or mitigate the effect of changes in the unobservable inputs on the fair value measurement. To comply with that disclosure requirement, the narrative description of the uncertainty of the fair value measurement that would result from using unobservable inputs should include the unobservable inputs disclosed when complying with items 2(d), (e), and (f) above.	
Added	For recurring and nonrecurring fair value measurements, if the highest and best use of a nonfinancial asset differs from its current use:	
Added	A disclosure of that fact?	
Added	Why the nonfinancial asset is being used in a manner that differs from its highest and best use?	
Added	For a group of financial assets and financial liabilities with offsetting positions in market risks or counterparty credit risk for which the fair value measurement exception under ASC 820-10-35-18D is used, has the accounting policy decision to use this exception been disclosed? (820-10-50-2D)	
Added	For each class of assets and liabilities not measured at fair value in the balance sheet but for which the fair value is disclosed, have the disclosure requirements in items 1(c), (e), (f), and (l) above [items 2(c), (d), (e) and (k) above upon adoption of ASU No. 2018-13], been made? ( <i>Note:</i> This disclosure is required for public entities only.) (ASC 820-10-50-2E)  *Note: A reporting entity is not required to provide the quantitative disclosures about significant	
	unobservable inputs used in fair value measurements categorized within Level 3 of the fair value hierarchy required by item 1(g) above [item 2(f) above upon adoption of ASU No. 2018-13]. For such assets and liabilities, a reporting entity does not need to provide the other disclosures required by this Topic.

Leases (AS	SC 842)	
Added	The SEC staff would not object to a public business entity that otherwise would not meet the definition of a public business entity except for a requirement to include or the inclusion of its financial statements or financial information in another entity's filing with the SEC adopting ASC Topic 842 for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. However, a public business entity that otherwise would not meet the definition of a public business entity except for a requirement to include or the inclusion of its financial statements or financial information in another entity's filing with the SEC may still elect to adopt ASC Topic 842 according to the public business entity effective dates discussed above. (ASC 842-10-S65-1)	
Modified	In the financial statements in which an entity first applies ASC Topic 842, the entity should recognize and measure leases within the scope of ASC Topic 842 that exist at the application date, as determined by the transition method that the entity elects. An entity should apply ASC Topic 842 using one of the following two methods:	Will reset on roll forward
Modified	Retrospectively to each prior reporting period presented in the financial statements with the cumulative effect of initially applying ASC Topic 842 recognized at the beginning of the earliest comparative period presented, subject to the guidance in items 2 through 6 below. Under this transition method, the application date should be the later of the beginning of the earliest period presented in the financial statements and the commencement date of the lease.	Will reset on roll forward
Added	Retrospectively at the beginning of the period of adoption through a cumulative-effect adjustment, subject to the guidance in items 2 through 6 below. Under this transition method, the application date should be the beginning of the reporting period in which the entity first applies ASC Topic 842.	
Added	An entity should adjust equity and, if the entity elects the transition method in item 1(a) above, the other comparative amounts disclosed for each prior period presented in the financial statements, as if ASC Topic 842 had always been applied, subject to the requirements in items 3 through 6 below.	
Modified	<i>Note:</i> Examples 28 through 29 (in ASC paragraphs 842-10-55-243 through 55-254) provide illustrations of the transition requirements for an entity that applies ASC Topic 842 in accordance with item 1(a) above.	Will reset on roll forward
Modified	An entity also may elect a practical expedient to not assess whether existing or expired land easements that were not previously accounted for as leases under ASC Topic 840 are or contain a lease under ASC Topic 842. For purposes of this item 5, a land easement (also commonly referred to as a right of way) refers to a right to use, access, or cross another entity's land for a specified purpose. This practical expedient should be applied consistently by an entity to all its existing and expired land easements that were not previously accounted for as leases under. This practical expedient may be elected separately or in conjunction with either one or both of the practical	Will reset on roll forward

	expedients in itemitems 4 and 6. An entity that elects this practical expedient for existing or expired land easements should apply ASC Topic 842 to land easements entered into (or modified) on or after the date that the entity first applies ASC Topic 842. An entity that previously accounted for existing or expired land easements as leases under ASC Topic 840above is not eligible for this practical expedient for those land easements.	
Added	An entity also may elect a practical expedient, which must be applied consistently by an entity to all of its leases (including those for which the entity is a lessee or a lessor) to use hindsight in determining the lease term (i.e., when considering lessee options to extend or terminate the lease and to purchase the underlying asset) and in assessing impairment of the entity's right-of-use assets. This practical expedient may be elected separately or in conjunction with either one or both of the practical expedients in items 4 and 5 above.	
Modified	If an entity uses one or more of the practical expedients in items 4 through 6 above, it should disclose that fact.	Will reset on roll forward
Modified	Derecognize that asset and liability (except for those arising from leases that are classified as operating leases in accordance with ASC Topic 842 for which the entity is a lessor).	Will reset on roll forward
Modified	Make a corresponding adjustment to equity if assets or liabilities arise from leases that are classified as sales-type leases or direct financing leases in accordance with ASC Topic 842 for which the entity is a lessor. Also see item 22 below.	Will reset on roll forward
Modified	An entity should provide the transition disclosures required by ASC Topic 250 on accounting changes and error corrections, except for the requirements in ASC paragraph 250-10-50-1(b)(2) regarding the effect of the change on income from continuing operations, net income, any other affected financial statement line item, and any affected per-share amounts for the current period and any prior periods retrospectively adjusted. An entity that elects the transition method in item 1(b) above should provide: (a) the transition disclosures in ASC paragraph 250-10-50-1(b)(3) as of the beginning of the period of adoption rather than at the beginning of the earliest period presented, and (b) the required disclosures in ASC Topic 840 for all periods that continue to be in accordance with ASC Topic 840. Modified	A lessee should initially recognize a right-of-use asset and a lease liability at the application date as determined in item 1 above.	Will reset on roll forward
Modified	Unless, on or after the effective date, the lease is modified (and that modification is not accounted for as a separate contract in accordance with ASC paragraph 842-10-25-8) or the lease liability is required to be remeasured in accordance with ASC paragraph 842-20-35-4, a lessee should measure the lease liability at the present value of the sum of the following, using a discount rate for the lease (which, for entities that are not public business entities, can be a risk-free rate determined in accordance with ASC paragraph 842-20-30-3) established at the application date as determined in item 1 above:	Will reset on roll forward

Modified	For each lease classified as a finance lease in accordance with ASC paragraph 842-10-25-2, a lessee should measure the right-of-use asset as the applicable proportion of the lease liability at the commencement date, which can be imputed from the lease liability determined in accordance with item 11 above. The applicable proportion is the remaining lease term at the application date as determined in item 1 above relative to the total lease term. A lessee should adjust the right-of-use asset recognized by the carrying amount of any prepaid or accrued lease payments and the carrying amount of any liability recognized in accordance with ASC Topic 420 for the lease.	Will reset on roll forward
Modified	If a lessee does not elect the practical expedients described in item 4 above, any unamortized initial direct costs that do not meet the definition of initial direct costs in ASC Topic 842 should be written off as an adjustment to equity unless the entity elects the transition method in item 1(a) above and the costs were incurred after the beginning of the earliest period presented, in which case those costs should be written off as an adjustment to earnings in the period the costs were incurred.	Will reset on roll forward
Modified	Recognize a right-of-use asset and a lease liability at the carrying amount of the lease asset and the capital lease obligation in accordance with ASC Topic 840 at the application date as determined in item 1 above.	Will reset on roll forward
Modified	If a lessee does not elect the practical expedients described in item 4 above, write off any unamortized initial direct costs that do not meet the definition of initial direct costs in ASC Topic 842 and that are not included in the measurement of the capital lease asset under ASC Topic 840 as an adjustment to equity unless the entity elects the transition method in item 1(a) above and the costs were incurred after the beginning of the earliest period presented, in which case those costs should be written off as an adjustment to earnings in the period the costs were incurred.	Will reset on roll forward
Modified	Derecognize the carrying amount of any capital lease asset and capital lease obligation in accordance with ASC Topic 840 at the application date as determined in item 1 above. Any difference between the carrying amount of the capital lease asset and the capital lease obligation should be accounted for in the same manner as prepaid or accrued rent.	Will reset on roll forward
Modified	If an entity elects the transition method in item 1(a) above and the lease commenced before the beginning of the earliest period presented in the financial statements or if the entity elects the transition method in item 1(b) above, recognize a right-of-use asset and a lease liability in accordance with ASC paragraph 842-20-35-3 at the application date as determined in item 1 above.	Will reset on roll forward
Modified	If an entity elects the transition method in item 1(a) above and the lease commenced after the beginning of the earliest period presented in the financial statements, recognize a right-of-use asset and a lease liability in accordance with ASC paragraph 842-20-30-1 at the commencement date of the lease.	Will reset on roll forward
Modified	Write off any unamortized initial direct costs that do not meet the definition of initial direct costs in ASC Topic 842 as an adjustment to equity unless the entity elects the transition method in item 1(a) above and the costs were incurred after the beginning of the earliest period presented, in which case those costs should be written off as an adjustment to earnings in the period the costs were incurred. Modified	A lessee should apply a modified retrospective transition approach for leases accounted for as build-to-suit arrangements under ASC Topic 840 that are existing at, or entered into after, the beginning of the earliest comparative period presented in the financial statements (if an entity elects the transition method in item 1(a) above) or that are existing at the beginning of the reporting period in which the entity first applies ASC Topic 842 (if an entity elects the transition method in item 1(b) above) as follows:	Will reset on roll forward
Modified	If an entity has recognized assets and liabilities solely as a result of a transaction's build-to-suit designation in accordance with ASC Topic 840, the entity should do the following:  If an entity elects the transition method in item 1(a) above, the entity should derecognize those assets and liabilities at the later of the beginning of the earliest comparative period presented in the financial statements and the date that the lessee is determined to be the accounting owner of the asset in accordance with ASC Topic 840.  If an entity elects the transition method in item 1(b) above, the entity should derecognize those assets and liabilities at the beginning of the reporting period in which the entity first applies ASC Topic 842.  Any difference in items (1) or (2) above should be recorded as an adjustment to equity at the date that those assets and liabilities were derecognized in accordance with items (1) or (2) above.  The lessee should apply the lessee transition requirements in items 10 through 19 above to the lease.	Will reset on roll forward
Modified	If the construction period of the build-to-suit lease concluded before the beginning of the earliest comparative period presented in the financial statements (if the entity elects the transition method in item 1(a) above) or if it concluded before the beginning of the reporting period in which the entity first applies ASC Topic 842 (if the entity elects the transition method in item 1(b) above), and the transaction qualified as a sale and leaseback transaction in accordance with ASC Subtopic 840-40 before that date, the entity should follow the general lessee transition requirements for the lease. Modified	Continue to recognize the carrying amount of the underlying asset and any lease assets or liabilities at the application date as determined in item 1 above as the same amounts recognized by the lessor immediately before that date in accordance with ASC Topic 840.	Will reset on roll forward
Modified	If a lessor does not elect the practical expedients described in item 4 above, write off any unamortized initial direct costs that do not meet the definition of initial direct costs in ASC Topic 842 as an adjustment to equity unless the entity elects the transition method in item 1(a) above and the costs were incurred after the beginning of the earliest period presented, in which case those costs should be written off as an adjustment to earnings in the period the costs were incurred. Modified	Recognize a net investment in the lease at the application date as determined in item 1 above as if the lease had been accounted for as a direct financing lease or a sales-type lease in accordance with ASC Subtopic 842-30 since lease commencement.	Will reset on roll forward
Modified	Record any difference between the amounts in items 22(a) and 22(b) above as follows:	Will reset on roll forward
	If an entity elects the transition method in item 1(a) above, as an adjustment to equity (if the commencement date of the lease was before the beginning of the earliest period presented or if the lease was acquired as part of a business combination; see also item 7(c) above) or earnings (if the commencement date of the lease was on or after the beginning of the earliest period presented).	
	If an entity elects the transition method in item 1(b) above, as an adjustment to equity.	
Modified	Account for the lease in accordance with ASC Topic 842 after the application date as determined in item 1 above.	Will reset on roll forward
Modified	Continue to recognize a net investment in the lease at the application date as determined in item 1 above at the carrying amount of the net investment at that date. This would include any unamortized initial direct costs capitalized as part of the lessor's net investment in the lease in accordance with ASC Topic 840.	Will reset on roll forward
Modified	If an entity elects the transition method in item 1(a) above before the effective date, a lessor should account for the lease in accordance with ASC Topic 840.	Will reset on roll forward
Modified	Regardless of the transition method selected in item 1 above, beginning on the effective date, a lessor should account for the lease in accordance with the recognition, subsequent measurement, presentation, and disclosure guidance in ASC Subtopic 842-30.	Will reset on roll forward
Modified	Beginning on the effective date, if a lessor modifies the lease (and the modification is not accounted for as a separate contract in accordance with ASC paragraph 842-10-25-8), it should account for the modified lease in accordance with ASC paragraph 842-10-25-16 if the lease is classified as a direct financing lease before the modification or ASC paragraph 842-10-25-17 if the lease is classified as a sales-type lease before the modification. A lessor should not remeasure the net investment in the lease on or after the effective date unless the lease is modified (and the modification is not accounted for as a separate contract in accordance with ASC paragraph 842-10-25-8). 	If an entity elects the transition method in item 1(b) above, as an adjustment to equity.	
Modified	If a previous sale and leaseback transaction was accounted for as a failed sale and leaseback transaction in accordance with ASC Topic 840 and remains a failed sale at the effective date: If an entity elects the transition method in item 1(a) above, the entity should reassess whether a sale would have occurred at any point on or after the beginning of the earliest period presented in the financial statements in accordance with ASC paragraphs 842-40-25-1 through 25-3. The sale and leaseback transaction should be accounted for on a modified retrospective basis from the date a sale is determined to have occurred.	Will reset on roll forward
	If an entity elects the transition method in item 1(b) above, the entity should reassess whether a sale would have occurred at the beginning of the reporting period in which the entity first applies the guidance in accordance with ASC paragraphs 842-40- 25-1 through 25-3 and recognize the sale as an adjustment to equity. The entity should then account for the leaseback in accordance with the guidance in ASC Subtopic 842-20 after the beginning of the reporting period in which the entity first applies ASC Topic 842.	
Modified	If a previous sale and leaseback transaction was accounted for as a sale and capital leaseback in accordance with ASC Topic 840, the transferor should continue to recognize any deferred gain or loss that exists at the later of the beginning of the earliest comparative period presented in the financial statements and the date of the sale of the underlying asset (if an entity elects the transition method in item 1(a) above) or that exists at the beginning of the reporting period in which the entity first applies ASC Topic 842 (if an entity elects the transition method in item 1(b) above), as follows:	Will reset on roll forward

Added	Under "Risk Assessment Procedures: Evaluating the Design of Internal Controls", added step 5 which reads as follows:  2. When performing an integrated audit, we have performed the following procedures for purposes of identifying significant classes of transactions, account balances, and disclosures, and their relevant assertions, and understanding the likely sources of specific risks and potential misstatements:  a. Obtained an understanding of the flow of transactions through the entity's information systems related to the relevant assertions, including how these transactions are initiated, authorized, recorded, processed, and recorded; and how the information system captures events and conditions, other than transactions, that are significant to the financial statements;  b. Identified the points within the entity's processes at which a misstatement due to fraud	Procedures Steps	Improved workflow

### RELATED, FOUNDATIONS AND ASSOCIATION WORKPAPERS FOR THIS TITLE

Related workpapers are Knowledge Coach Word workpapers where information flows in or out of tables within the workpaper. Some of these related workpapers are Foundation workpapers or associated workpapers.

Foundation Workpapers include most of the Communication Hub workpapers, which are central to the Knowledge-Based Audit Methodology used by the Knowledge Coach titles.

Associated workpapers require you to associate them with custom values, such as audit areas, specialists, service organizations, and other items. Workpapers require an association when you need to have more than one instance of a particular Knowledge Coach workpaper in your binder for each type of item to which the workpaper is related. Making this association allows Knowledge Coach information to flow properly between workpapers.
