

ProSystem fx Tax v. 2009.05060 2009 Louisiana Form R-210NR Scan

An issue with the underpayment of income tax penalty computation for 2009 nonresident and part-year resident returns has been addressed on Release 2009.05060. Line 9 of Form R-210NR will equal line 8, less line 5, and result in a higher calculation of penalty. A scan to identify returns meeting this criteria will be available.

This scan identifies 2009 Individual Louisiana tax returns where underpayment of income tax penalty may be understated on Form R-210NR, line 9.

To install this scan:

1. Download the scan program into your ?:\WFX32 directory.
(where ? is the drive letter where your ProSystem fx programs reside)

Download W09ILANR.EXE

2. From Start/Run type ?:\WFX32\W09ILANR.EXE
(where ? is the drive letter where ProSystem fx programs are installed)
This self-extracting executable file will open a dialog allowing the user to select the location where the scan files will be extracted. The default location is C:\Wfx32 and should be changed to the user's Wfx32 directory location as appropriate.

To run this scan:

1. From Start/Run type ?:\WFX32\2009LOUI ?
(where ? is the drive letter where ProSystem fx programs are installed)
Please remember, do not add a colon " : " after the last question mark (drive letter).
2. The scan output will automatically be sent to a text file which will be opened in Notepad. You can then use Notepad to print a copy of the scan output.

If you have questions regarding this issue, please contact our Technical Support Group at 1-800-739-9998, option 3.
