Updates to Current Utilities Database - Geography Changes Effective March 2024

Connecticut has made major changes to their county-level government structure, replacing all counties with planning regions. The planning regions only roughly correspond to the former counties, which may affect some cities. Effective with the March 2024 data release next month, all county boundaries and names and all geocodes will reflect the new county equivalents. Note that our database uniformly uses the term “county” in all states, even those that have other legal descriptions for their county equivalents.
