The 2010 Individual Indiana Estimate Scan

Indiana Form ES-40 2011 estimated tax payment vouchers have an incorrect digit in the scan line. The result is that estimate payments may be credited to 2010, which inadvertently may generate a refund for the estimated tax payment amount. The Indiana Department of Revenue is attempting to flag these vouchers so the funds are applied to the 2011 tax year with no action from the taxpayers. However, if the state does not catch all vouchers, the additional refund this year will cause an underpayment of estimated tax when filing the 2011 tax return.

This scan will identify potentially impacted Individual returns that are calculated before Release 2010.03060.
