Tax Updates

Individual

Alabama - Alabama has changed the federal tax deduction to include child tax, earned income and dependent care credits. Alabama DOR has set an effective date of March 29, 2022 at 3:00 p.m. CT for the new schema. After this time, returns cannot be uploaded until the program changes are available. The revised calculations and associated schema will be available Wednesday, March 30, 2022. Alabama returns in Ready to Release status will be moved to Stopped for State Schema Change if released on the old schema version until program changes are available. Alabama 1040 returns will need to be recalculated and resubmitted after the release if released on the old schema version. Alabama DOR indicates completed returns electronically filed with the current version of the schema will be automatically recalculated to reflect the new federal tax deduction. Amended returns must be filed if paper filing.

Individual, Corporation, Partnership, S Corporation

Philadelphia - Philadelphia announced they are disabling their MeF system starting at 6:00 p.m. ET on Friday, April 1, 2022 to activate a new schema version. In anticipation of this change, CCH will release program changes that include the new schema version Wednesday, March 30, 2022. Once you update the software and recalculate returns on this new version, you will not be able to upload or release Philadelphia returns until 8:00 p.m. ET on Friday, April 1, 2022 when the new schema is activated by Philadelphia. Any returns calculated, uploaded and released on a prior release may be filed until 8:00 p.m. ET on Friday, April 1, 2022. After April 1, 2022 at 8:00 p.m. ET, you will need to update to the latest release to electronically file your Philadelphia returns. Any returns in Ready to Release status calculated using the prior version of the schema will be moved to Stopped for State Schema Change.

Michigan Electronic Filing

Forms 1040-H, MI-461 (Form 5595), and MI-5606 are now available for electronic filing.

MI-461.

- The MI-461 uses the same input for Federal Schedule C, Schedule E, Schedule F and the K-1 series for the Business name, FEIN/SSN, and Federal Income (Loss) amounts. The Michigan amount will either use 100% if the entity is assigned to Michigan (using normal FS/ST rules) or 0% otherwise. Apportionment on Column C is from Line 8 of the MI-1040H assigned to the same entity.
- According to the MI-461 instructions, Guaranteed payments to partners are not considered business income for Michigan purposes. Guaranteed payments, however, are not automatically subtracted from income when the amounts from the Federal return are used. This adjustment should be made manually using the MI-461 overrides.
- MI-461 overrides are located on (Michigan worksheets > Income / Deductions > Section 7 - Excess Business Loss MI-461).
- To override an existing entry on MI-461, enter the attachment code for the type of entity as well as the entity name. The remaining input fields are all optional.
- If an override entry is entered that does not contain the required entries, or has entity information for an entity that does not exist, then a new entry on MI-461 will be created.
- A field for guaranteed payments is also located just above the MI-461 overrides. An entry here will create a line item on the MI-461 with the business name "Guaranteed Payments," the taxpayer's SSN, and the amount entered as 100% apportioned to Michigan.
