Downloading Prior Year Software

To convert data from a competitor software, or to install previous years of ATX on another computer, you must download the prior year software from the ATX Solution Center.

To do this:

1. Log into the ATX Solution Center.
2. Click the **Download** menu, point to **Year**, then select the year you want to download.

3. The Solution Center displays the selected prior year download page. Click the **Download** link to access the installation.

ATX 2017 Tax Program Download

Below are the ATX tax preparation products that are currently available to you for download.

If you purchased additional user licenses click [here](#) for your activation codes.

IMPORTANT DOWNLOAD INFORMATION:

- **This page is for the ATX download only:** If your package includes other products, or if you have purchased other products separately, those products must be downloaded from their corresponding pages from the **Download Center** above
- **New install vs. update:** If you **have not yet** installed ATX 2017 this year, download the version below, which includes all updates to-date. If you **have already** installed ATX 2017 this year, and only need the program updates, go to the [ATX 2017 Updates Page](#) **OR** click the 'Program' update icon within the ATX application.

ATX Tax Products

Year	SKU	Product	Activation/Installation Code	Download
2017	ATX-ADVANTAGE	ATX Advantage Package		Download
2017	ATX-EAM	ATX Enhanced Asset Management		Download

4. Once the download is complete, install the program using the same steps as those described in installing current year software.

-  If you have not purchased the prior year software, the ATX Solution Center displays a message instructing you to contact your account representative to order.

We're sorry, but we don't find an order on record for you. If you've already purchased your ATX tax preparation software, please call 800-638-8291 and speak with one of our support representatives.
