Adding and Printing Client Letters

Client Letters allow you to communicate with your clients about their tax returns. TaxWise Online enables you to print a letter with each return. You can add a standard letter, customize an existing client letter, or create your own.

The client letters include information about:

- Tax preparer's contact information •
- Federal refund, balance or amount due
- Related state return information
- Where to mail the tax return

Prior to the 2022 filing season, the client letter was printed separate from the tax return. Starting with the 2022 filing season, you will be able to print your client letter along with your return. As part of this enhancement, you will also be able to add your client letters as part of your Return Templates.
