# TaxWise Desktop Tiered Pricing

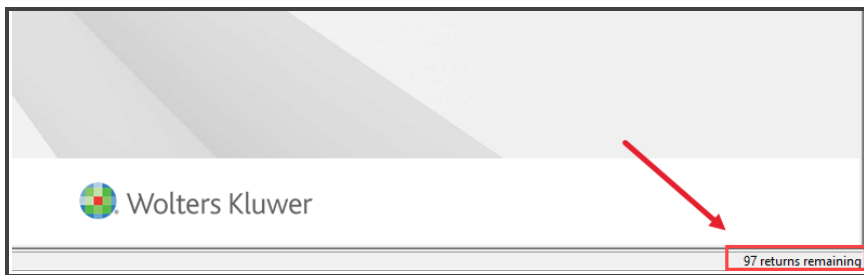

Wolters Kluwer launched new pricing packages for new customers. Rather than purchasing a license for a number of users or preparers, you are purchasing a package of returns. All new TaxWise customers will be tiered pricing customers; however, this pricing package is optional for renewal customers

The available bundles include :

- 100 Returns
- 400 Returns
- Unlimited Return Package

**i** For information on pricing, please contact your Sales Manager or Account Representative.

As a Tiered Pricing customer, you will see the number of returns in the lower right-hand corner. The number of remaining returns will reduce as you start a new return or carry forward returns.

**i** You will not get credit back for a return that has been deleted. However, if you are using the SSN of a previously deleted return, the count will not be affected.

**i** If you attempt to start a new return, and you are out of returns based on the bundle you purchased, you will see a message stating that you have exceeded the number of licensed returns included with your TaxWise Package. Going forward, you will be billed for each new return created.
