Please visit the Suite-SaaS Application Status webpage to view in real time the current status of any of our SaaS applications. The Application Status webpage is updated every 15 minutes. Customers may visit at any time, including when support is closed.

NEW IN THIS RELEASE

ProSystem *fx* Document

◆ **Enhanced integration with ProSystem *fx* Scan** allows a file sent to Document from Scan to remain on the Add Files screen until uploaded. Previously, the file had to be uploaded immediately before the Add Files screen could be closed.

◆ **Modified** Email Notification system to help prevent email notifications from being caught by spam filters.

◆ **Renamed "Encryption Keys" to "Email Encryption Keys"** to reduce confusion between Document's Encryption Keys for sending encrypted email attachments and Admin Manager's Encryption Keys feature.
