### Event list search filter

Locate specific iQ events by typing part of an event title into the search bar located at the top of the event list page. Combine this with existing filters to narrow down your events list even further. For example, enabling the "1040 - Individual" Return Type filter and typing "2021 Tax Planning" into the search bar displays events that match both criteria.

### Event list pagination

Enjoy a better experience navigating the iQ event list by using pagination controls located at the bottom of the page. Choose the page size and navigate from one page to another using the same control scheme used throughout the CCH Axxess suite.
