New in this Release

View CCH Access iQ Events in the CCH Access Tax Return Dashboard

A new Relevant iQ Events module is available in the CCH Access Tax Return Dashboard. This module provides an updated list of federal and state tax events that impact your 1040 Individual return.

Just like the CCH Access iQ event dashboard and client dashboard modules, clicking each title displays a detailed analysis of the event, providing useful information when advising your client on the event.

This module displays automatically for all staff users licensed for CCH Access iQ, but firm administrators can hide it by using **Firm Settings and defaults > Tax Options** in the CCH Access Dashboard.
