Security Improvements

As part of our ongoing commitment to the security of your customer data, we have performed our regular security assessments to identify and resolve any potential security risks.

Restricted Use of Special Characters When Searching

Related to the security improvements above, we have restricted the use of some special characters when performing searches in Portal to reduce the risk of malicious SQL code injections. Special characters will be removed or replaced with a space when a search is performed, which may result in unexpected search results. For best results, you should omit the following special characters when searching in Portal:
