The following website provides important information about this release: <http://support.cch.com/Suite/ReleaseNotes/>

By accessing this site you can view such helpful information as:

- ◆ Release Bulletins
- ◆ ProSystem fx Suite Support Calendar

Please visit the [Suite-SaaS Application Status](#) webpage to view in real time the current status of any of our SaaS applications. The Application Status webpage is updated every 15 minutes. Customers may visit at any time, including when support is closed.

## NEW IN THIS RELEASE

---

### ProSystem fx Practice

In this update, we have modified how your Practice data will migrate into our SaaS platform. Previously, your clients using billing engagements would migrate into SaaS without a corresponding invoice. With this update, you will now see a corresponding invoice and be able to track the Work In Progress.

We, also, have made an update to the Accounts Receivable module that corrects how finance charges were being calculated for clients with multiple invoices.
