Tax News

Caution. Taxpayers Sending Masked Documents to Taxing Authorities

A number of agencies have received estimate and payment vouchers with masked Social Security Numbers. To ensure payments are correctly and timely processed, please advise taxpayers to submit the non-masked copies with their payments. Accountant and Taxpayer copies are masked. Only the Government copy includes the Social Security Numbers for tax filing.

Corporation Blended Tax Rates Added

The Tax Cuts and Jobs Act cut corporate tax rates to 21% for tax years beginning after December 31, 2017. The tax bill did not address Code Sec 15(a), which makes tax rate changes applicable to the fiscal corporate tax year. Consequently, 2017 fiscal year corporations are subject to the 21% tax rate for the period that covers 2018.

With this release we will calculate the fiscal year corporations tax rate using a blended tax rate where the 2017 portion of the year uses the tiered rates and the 2018 portion uses the 21% tax rate.

The tax is determined by calculating tax for a full year using tiered rates and the 21% rate, and then applying a proration to each tax based on the actual number of days in each year.

Example: A corporation with a fiscal year of 06/01/17 - 05/31/18 with taxable income of \$5,000,000 will be calculated as follows:

Proration

Number of days in 2017 = 214

Number of days in 2018 = 151

Tax Calculation Using Blended Rates

Full year 2017 tax: $5,000,00 * \text{tiered rates} = 1,700,001 * (214/365) = 996,713$

Full year 2018 tax: $5,000,00 * 21\% = 1,050,000 * (151/365) = 434,384$

Total tax = 1,431,097

We will carry the tax to 8 decimal places. We will display the calculation in a supporting statement for Form 1120, Page 3, Line 2, or the applicable lines of other corporation returns, such as 1120-C and 1120-F.

The same blended tax rate treatment will apply to fiscal year Form 990-T when filing as a corporation. The corresponding supporting statement will be produced for Form 990-T, Page 2, Line 35c.

Electronic Filing

We have been informed by the IRS that their ELF systems have not yet been updated to accept fiscal year corporation returns. They are actively working on this and project it will be ready before April 15, 2018. Until we receive notification that returns can be e-filed, we will be issuing a warning diagnostic, but we will not reject the return.

Alternative Minimum Tax, Schedule O, S Corporation Built-In Gains Tax

Updates for these items are not included on this release pending further clarification from the IRS.

Tiered Rates

We added a new option to use the old tiered tax rates for any fiscal year return. Using old rates is likely incorrect, but we are keeping them in place for the time being. The option is located on the worksheet Taxes > Additional Taxes / Summary Taxes > Summary Taxes, Overrides and Additional Taxes / Interest > Use tax rates in effect for 2017 calendar year.

For Exempt Organizations, this option is located on the worksheet Form 990-T Exempt Organization Business Income Tax Return > General Information > Use tax rates in effect for 2017 calendar year.

Estimated Tax

We are still awaiting the release of Form 1120-W by the IRS. Until the form and its instructions are released, you will still need to select the option to use the 2018 tax rate for the estimated tax calculation. The option is located on the worksheet Payments/Penalties > Estimates and Application of Overpayment > Federal Estimates and Application of Overpayment > Use 2018 tax rates.

For Exempt Organizations preparing Form 990-W (for Form 990-T) as a corporation, this option is located on the worksheet Payments/Penalties > Estimates and Application of Overpayment > Estimate Preparation for Form 990-T > Force recalculation of estimated tax worksheet using next year rates.

Tax Updates

Update Pro Forma

Our Update Pro Forma feature is available to revise the carryover amount from Schedule MA-M. This amount was rolled forward to Wisconsin > Credits > Schedule CF > Credit Computed for the last year present.

Individual, Partnership, Corporation, S Corporation, Fiduciary, and Exempt Organization

Form 114, Report of Foreign Bank and Financial Accounts. The Account Owner Tax Identification Number (TIN) is no longer required for filing Form 114. If the TIN of the account owner is not entered, the TIN will be blank in the electronic file and the TIN type will show as Unknown. In the future, FinCEN will update their system to properly process FBARs in this situation. For now, Forms 114 in this situation will show in the Electronic Filing Status System as Amendment Required - Timely Filed, with error codes E31 and E33.

Note: No further action is needed regarding these errors, as the electronic file will be processed and FinCEN will consider it correctly and timely filed.
