The Delta (DE06) credit rate has been updated to 100% of the lesser of the non-resident city's tax rate or 1%.

Oregon

In January, the IRS announced they'll waive the estimated tax penalty for many taxpayers whose 2018 federal income tax withholding and estimated tax payments fell short of their total tax liability for the year. The IRS is waiving the penalty for any taxpayer who paid at least 85% of their total tax liability during the year through federal income tax withholding, quarterly estimated tax payments, or a combination of the two. The usual percentage threshold is 90% to avoid a penalty. Taxpayers must request the waiver from

the IRS using Form 2210. The Oregon Department of Revenue is offering a similar waiver of underpayment interest, known as UND, for the 2018 tax year. This is to help taxpayers who were unable to properly adjust their withholding and estimated tax payments to account for the impact of the changes under the federal Tax Cuts and Jobs Act on Oregon taxes. The Oregon waiver is available for individuals whose total withholding and estimated payments made on or before January 15, 2019 equal at least 85%, instead of the usual 90%, of the net tax shown on their 2018 return. This is available by default.

The federal return attached to the Oregon state return prints one set of statements.

[Oregon - Multnomah/Portland/TriMet](#)

Form QU-2018 has been discontinued by the Portland Revenue Division for tax year 2018. As a result, we removed the form and added new input in its place so that underpayment of estimated tax penalty may still be entered on the return. The new input is on the Multnomah / Portland > Underpayment Penalty Preparation > Underpayment of estimated tax penalty fields.

[Tennessee](#)

Form IE calculates the amount that carries to Form FAE 170 Schedule J, Line 20. New input is available on Other > Limited Liability Company > Form IE.

[West Virginia](#)

Firm name prints in the signature block in the absence of a preparer's name.
