Tax Updates

All Systems

IRS Notice 2020-23 extended due dates for multiple forms due between April 1, 2020, and July 14, 2020, including second quarter estimate payments. Calendar year updates are available with this release; fiscal year updates will be available in release 2019-3.4 on April 26, 2020.

Letters and filing instructions now reflect extended due dates for federal and state estimates in an orderly fashion; the disorder was created by the revised arrangement of the estimate payment dates.

The IRS and various taxing authorities have indicated that paper returns are not being processed at this time, so refunds will be delayed. No contact or inquiry with these taxing authorities is needed, as the processing will recommence in the future.

CARES Act changes for tax year 2018 and tax year 2019 will be available in release 2019-3.4. Timing of the changes for tax year 2017 remains in planning.

Electronic Filing Updates

Individual

Federal - The IRS is now requesting that the first estimate payment withdrawal date in the electronic file be July 15, 2020, instead of April 15, 2020, when electronically filing federal estimates. Please recalculate and resubmit with release 2019-3.3.1 or later. You can also choose to paper file the federal estimates instead. Please wait until 2019-3.3.3 if the second estimate should be withdrawn on July 15, 2020, as well.

 **Note:** The IRS is not accepting electronically filed 1040 estimate payments using the original due dates. The option to revert to original dates should not be used in conjunction with 1040 electronically filed estimates.

Individual and Fiduciary

New York - Beginning Thursday, April 9, 2020, all released 1040 and 1041 federal and state electronically filed balance due returns or estimate payments that included a post-April 15, 2020, debit date were moved to Stopped for CCH Review to prevent unexpected early debits. The New York Department of Taxation and Finance has updated its systems, but returns in this status must be re-uploaded and released to complete the transmission.
