A calculated version of Forms 8985 and 8986 has been added on releases 2020-4.1 and 2019-6.1. This version will allow multiple entities of Form 8986 so the form can be generated for each applicable partner. New input is available on Other > Form 8985 Transmittal/Partnership Adjustment Tracking Record. Form 8985 will be generated based on this input. Form 8986 can be generated in two different ways.

- Option 1 - To generate the form for all partners, check the box to Produce Form 8986 for all partners on Other > Form 8985 Transmittal/Partnership Adjustment Tracking Record > Form 8985 General and Signature Information.
- Option 2 - Prepare the form for specific partners on Other > Form 8985 Transmittal/Partnership Adjustment Tracking Record > Form 8986 Information About the Partner. This section can also be used to exclude specific partners when the option to prepare Form 8986 for all partners is used. Form 8985 Part IV/Form 8986 Part V input is available on the Other > Form 8985 Transmittal/Partnership Adjustment Tracking Record > Form 8985 Partners Total Reviewed Income. By default, these entries will be allocated to Form 8986 based on the percentages given on the partners' federal Schedules K-1. Ratio ID allocation is available to specially allocate these amounts.

These forms will be included in the letters and filing instructions when they are produced from the new input. A separate federal letter will be prepared based on the input General > Letters and Filing Instructions > Transmittal Letter > Prepare separate letters for certain federal forms. The normal inputs for standard and custom filing instructions and other applicable transmittal letter input will also apply.

Pennsylvania - Philadelphia

Diagnostic 48184 has been reactivated to disqualify amended returns from e-file. Philadelphia does not allow e-file of amended returns.
