## In this Release (Ahead of Schedule): Automatic Attachment of Schedules K-2 and K-3 and e-File Limitations

We are releasing the automatic attachment of Schedules K-2 and K-3 PDF attachments with 2.5.1/.02051 releases, ahead of the date we projected last week. If you did not see our announcement of this feature in the 2.5/.02050 CCH Software News, here is an overview:

When the IRS introduced Schedules K-2 and K-3 in 2021, they announced that full e-File support would not be available at the beginning of the tax season. As a result, they are allowing for the addition of PDF attachments of Schedules K-2 and K-3 for filing purposes.

The IRS has provided tax software vendors with the following dates for e-File schema delivery, after which time we will need to incorporate and test the schema in our software before release. Projected dates are as follows:

Entity	Estimated dates IRS delivers eFile schema to Tax Software Vendors	WK releases full e-file functionality for Sch K-2/K-3
1065	March 20, 2022	Post 4/18 - release date TBD
1120S	June 2022	Summer 2022
8865**	None in 2021	N/A

**CCH Access™ Tax will automatically attach Schedules K-2 and K-3 for up to and including 50 partners/shareholders in 1065, 1120S and 8865 returns.** Returns with more than 50 partners/shareholders will not be able to be e-filed at this time due to size constraints. We have conducted performance testing to ensure that returns with these PDF attachments will be transmitted successfully.

We plan to release the automatic generation of Schedules K-2 and K-3 PDF attachments on our CCH Access Tax 2021-2.6 release on February 20, 2022.\*

### Important Notes:

\*Once we have implemented the schema, the automatic PDF attachments will no longer generate.

\*\*The IRS has indicated they will not provide a schema for 8865 for tax year 2021. We have outlined our concerns and raised them to the IRS and they acknowledge receiving the same concerns from others in the tax industry. We have no additional news to report at this time, but we will keep you informed as we learn more.

We continue to update [KB 136731](#) as our primary source of topics on K-2/K-3.
