### Tax Updates

#### Individual

Letters and Filing Instructions have been enhanced to provide web payment instructions for all states that allow it, regardless of requirement. To utilize this feature, entries must be made on General > Letters and Filing Instructions > General Letter > Web pay instruction code.

The default option will leave letters as they have previously been and will only apply the web pay paragraph when required for the thresholds set by the state. The option to “Replace standard payment with WebPay instruction” will suppress the paragraph referencing payments made by check and replace them with web payment instructions. The option to “WebPay instruction informational paragraph” will provide the optional web payment instructions in addition to the paragraph referencing payments made by check. When this option is selected, states that have met the threshold for required web payments will continue to provide web payment instructions instead of paragraphs referencing payments made by check.

Application of the web pay paragraph can be selected on General > Letters and Filing Instructions > General Letter > Apply web pay paragraph to. Options range from balance due, estimate payments only, extension payment only, or a combination of the three. No entry is required if the web payment instruction should be provided for returns, estimates, and extensions (if allowed by the state).

### Electronic Filing Updates

#### Maryland

Electronic filing for Maryland Fiduciary returns is new this year. We are projecting this to be on release 2022-3.4, which will be available on April 23rd. If you want to electronically file a return, you will need to place the return on extension. Otherwise, you may paper file for the April deadline.
