Issues Resolved

Active® Directory® Integration (ADI)

A change has been released to allow new staff users created through the CCH Axxess Active® Directory® Integration to login to CCH Axxess. This issue did not impact existing users in Active® Directory®, only new users created since the release of 2016-4.1 where the issue was introduced. This also had no impact on our CCH Login mode of authentication or our Active® Directory® Federated Services mode of authentication.

Individual

Michigan. We eliminated the diagnostic that prevented some returns from being electronically filed.
