NEW IN THIS RELEASE

ProSystem fx Workstream

Technical corrections made with this release include:

- ◆ **Notifications**
 - Notification will now be sent when recipient is set by role.
 - Workstep completion will now trigger applicable notifications.
 - The following monitored notification is now available: "Notify specified users when project is <##> days before the <planned finish date/statutory due date>, and the percentage of completion is less than <##%>, based on < budgeted hours/estimated hours to complete".
- ◆ **Worksteps**
 - Workstep order is now saving and displaying appropriately within Masters.
 - Marking a workstep complete now displays the correct project status.
 - The Actual Finish Date of a workstep will now be set correctly when the workstep is marked as complete by selecting the current system date.
 - Workstep Completion Date now reflects the correct date when entered from a time zone which is a day ahead of the ProSystem fx data center time zone (CST).
 - You are now able to mark a workstep complete from the Project Assignment Pane | Workstep View.
- ◆ **Views**
 - Actual Completion Date is now displayed correctly in the Completed Project view when the project has been marked complete via the ribbon, context menu, or route sheet.
 - Date Completed is now displayed correctly for forms.
