

NEW IN THIS RELEASE

Email Management and Document Explorer 3.8.1

You can download this release from the support website at this [location](#).

- Improved speed and reliability – Performance has been improved overall. The amount of time it takes for a sent email to be uploaded to Document has been improved. The file is now uploaded within minutes of being moved to the Outlook Sent folder.
- Asynchronous Client list downloads – By combining Document Explorer 3.8.1 and Email Management 3.8.1 you no longer have to wait for hours while your client list is downloaded. Any network operations performed by Email Management will now be asynchronous so you can still work in Outlook while your data is being updated.
- More Reliable Client List Synchronization – Synchronization engine for client lists has been improved. When new clients are added to Document you will see them within 15 minutes in Document Explorer and Email Management. *Note: This may require you to refresh your folder list.*
