New in this Release

2015 Knowledge-Based™ Preparations, Compilations and Reviews is designed to help the accountant efficiently and effectively perform financial statement preparation engagements, compilations and reviews of nonpublic commercial entities in accordance with Statements on Standards for Accounting and Review Services (SSARS) issued by the Accounting and Review Services Committee (ARSC) of the American Institute of Certified Public Accountants (AICPA).

The Knowledge-Based Preparations, Compilations and Reviews (KBPCR) Methodology emphasizes using knowledge of the entity to perform preparation, compilation and review engagements by facilitating the flow of information so that the understanding obtained in each process affects the decisions made in the next. Although the accountant will likely perform most steps in this methodology sequentially, conducting an engagement is not necessarily a linear process. Knowledge gained from preliminary engagement activities helps the accountant design and customize engagement procedures; evidence gained from procedures performed is evaluated and the appropriate accountant's report is issued. This edition includes specific up-to-date guidance for conducting preparation, compilation and review engagements in accordance with the SSARS. This document is published for the purpose of communicating, to users of the toolset, updates and enhancements included in the current version. This document is not, and should not be used as, a program to update the engagement documentation of an engagement started in a previous version of this product.

This document is published for the purpose of communicating, to users of the toolset, updates and enhancements included in the current version. - ◆ Enhancing engagement documentation.

ProSystem fx® Knowledge Coach

- ◆ ProSystem fx® Knowledge Coach functionality allows accountants to use the Knowledge-Based methodology more efficiently by eliminating the need for duplicate entry of the same information, tailoring documentation to each particular engagement, and documenting procedures performed. PRP-100 Tailoring Question Workpaper, CMP-100 Tailoring Question Workpaper or REV-100 Tailoring Question Workpaper are documents in Knowledge Coach that presents engagement-level questions designed to aid in tailoring the engagement documentation to fit each client. Completing the questions helps the accountant avoid duplication and unnecessary workpapers.
- ◆ Before you begin your engagement, please review the guidance in PRP-101 Overall Preparation Program, CMP-101 Overall Compilation Program or REV-101 Overall Review Program. These workpapers are intended to be your road map through the Knowledge-Based methodology. You should start your engagement with PRP-100 Tailoring Question Workpaper, CMP-100 Tailoring Question Workpaper or REV-100 Tailoring Question Workpaper and PRP-101 Overall Preparation Program, CMP-101 Overall Compilation Program or REV-101 Overall Review.
- ◆ The Risk Assessment features have been disabled since the 2012 Knowledge-Based Compilations and Review Title for Knowledge Coach.
 - Refer to:
 - KBP-101 Preparation: Significant Matters, KBC-101 Compilation: Significant Matters and KBR-102 Review: Significant Matters to accumulate and review significant issues and findings.
 - PRP-801 Preparation Program, CMP-801 Compilation Program: Significant Risks and Uncertainties and REV-802 Review Program: Significant Risks and Uncertainties provides a guide for implementing the guidance related to the disclosure of certain significant risks and uncertainties.

- ◆ Information Flow helps cut down on the time spent duplicating information across forms. In addition, the flow of consistent information ensures that information and updates to information are not missed between workpapers. Drill-down functionality helps the user navigate quickly to the source of the information, aiding in the review of the engagement file.
- ◆ Diagnostics help keep track of unresolved issues like unanswered questions, incomplete risks, program steps not linked to risks or relevant assertions, missing workpaper, and more.
- ◆ Reference to Accounting Research Manager (ARM) – If you subscribe to an ARM library that includes preparation, compilation and review content, you can link directly to source material from Resources within Knowledge Coach documents. These links have been updated to refer to the accounting standards under the FASB Accounting Standards Codifications. Also, if you subscribe to the Knowledge-Based Preparation, Compilation and Review Guide on ARM, you can take advantage of references to the guide material from within the Knowledge Coach documents.
