### New in this Release

---

Knowledge-Based Audits of HUD Multifamily Housing Programs is designed to help the auditor efficiently and effectively perform audits of housing and urban development programs in accordance with auditing standards generally accepted in the United States of America (U.S. GAAS), Government Auditing Standards (GAGAS), and the Consolidated Audit Guide to Audits of HUD Programs, published by the U.S. Department of Housing and Urban Development (HUD Audit Guide). The Knowledge-Based Audit methodology is also designed to help the auditor efficiently and effectively perform cost certification audits in accordance with attestation standards generally accepted in the United States of America, GAGAS, and the HUD Audit Guide. HUD audits include both an audit of the financial statements and a compliance audit. The knowledge-based audit, including the compliance audit, is a risk-based methodology that emphasizes using knowledge of the entity to make risk assessments in connection with the financial statement and compliance audit of a HUD program. This allows the auditor to more appropriately focus audit efforts on those areas which in the auditor's judgment are the most significant and pose the most risk to the audit. The administration of HUD programs includes both financial statement and compliance considerations, and requires specialized accounting and auditing knowledge. This module includes up-to-date guidance for audits of programs identified under Chapter 3, HUD Multifamily Housing Programs.

This document is published for the purpose of communicating, to users of the toolset, updates and enhancements included in the current version. This document is not, and should not be used as an audit program to update the audit documentation of an engagement started in a previous version of this product.

This is the fourth update to this Knowledge Coach title. If you are updating from a previous version of this title, refer to the Knowledge Coach User Guide Chapter 12. The guide is found on the Engagement File Room Help menu.

The 2016 documents include Accounting Research Material links to specific guidance that provides instant access to detailed analysis related to the steps and processes discussed in the workpapers.

The 2016 edition of Knowledge-Based Audits of HUD Multifamily Housing Programs features numerous enhancements, including:

- ◆ Added a tailoring question in AUD-100 in response to SAS No. 130, which asks if the auditor will be performing an audit of internal controls over financial reporting that is integrated with the audit of financial statements. This tailoring question will show/hide procedures in AUD-101, AUD-701, AUD-901, KBA-201, KBA-412, KBA-904, AID-601, and AID-903 based on the user's answers.
- ◆ AUD-903 and AUD-904 have been streamlined and minimized for duplication elsewhere. Some steps in AUD-903 have been moved to KBA-501. Important Note: If KBA-501 wasn't included in your binder prior to roll forward please insert it before you roll forward so that any documentation for these steps in AUD-903 will retain on roll forward.
- ◆ AUD-802 Audit Program: Investments in Securities, Derivatives Instruments, and Hedging Activities has been split into AUD-802A Audit Program: Investments in Securities and AUD-802B Audit Program: Derivative Instruments and Hedging Activities. AUD-802B is a completely new audit program; therefore, you should publish the AUD-802 audit program before updating so that you can re-populate any customization or data in AUD-802B.

- ◆ Due to this split, the Investment in Securities, Derivative Instruments, and Hedging Activities audit area from the 2015 HUD Multifamily Housing Programs Title is split into two separate audit areas in the 2016 title: 1) Investments in Securities and 2) Derivative Instruments and Hedging Activities. If the user selected the combined audit area as applicable in 2015 and retains on roll forward only the "Investments in Securities" audit area will retain on roll forward. Please see KCO-001 for further information on roll forward considerations.
- ◆ A new section has been added to AID-201 to address "Threats and Safeguards" regarding auditor independence.
- ◆ KBA-105 has been reorganized so that the user will add entries to column 1 instead of column 3 so the flow is more logical.
- ◆ A comments column has been added to KBA-400 Scoping and Mapping Table and in KBA-502 Assertion Level Risk Table. No diagnostic will appear in these columns if they are left unanswered.
- ◆ An option for a Not Applicable answer has been added to question 9 of AUD-602.
- ◆ A new Not Applicable option has been added in KBA-103 column 15, "If Not a Material Weakness, Is It Important Enough to Merit Attention by Those Charged with Gov.?"
- ◆ Changes have been made to address issues with risk information not flowing correctly to KBA-40x series workpaper when cash receipts/cash disbursements have been selected.
- ◆ Changes have been made to clarify various risk diagnostics so that the correct diagnostics are displayed at the proper time.
- ◆ There are many new CORs, RPTs and RESs including:
  - COR-201A Audit Engagement Letter: Integrated Audit
  - COR-901A HUD Audit Management Representation Letter for Integrated Audits
  - COR-904A Communication to Management with Significant Deficiencies and/or Material Weakness - Integrated Audit
  - COR-905 Communication to Management with No Significant Deficiencies or Material Weakness
  - RES-022 Special Considerations in Auditing Financial Instruments
  - RES-023 Example of Management's Report on Internal Control over Financial Reporting
  - RES-024 Considerations of an Audit of Internal Control over Financial Reporting That Is Integrated with the Knowledge-Based Audit of Financial Statements

- ◆ Auditor's Reports that provide a variety of sample auditor's opinions on audited financial statements and compliance with HUD programs;

- ◆ Correspondence documents that provide sample letters to be used to comply with U.S. GAAS, GAGAS, and the HUD Audit Guide requirements and in many other common situations; and
- ◆ The AICPA's Auditing Standards Board's (ASB) Risk Assessment Standards - The practice aids and tools in the 2016 Knowledge-Based Audits of HUD Multifamily Housing Programs are designed around the AICPA's risk assessment and clarified standards to assist auditors of nonpublic entities by:
  - Facilitating compliance with U.S. GAAS, GAGAS, and the HUD Audit Guide;
  - Encouraging more effective audits through tailored audit programs and comprehensive practice aids;
  - Helping auditors to focus on and respond to identified audit risks; and
  - Enhancing audit documentation.

### ProSystem fx® Knowledge Coach

- ◆ ProSystem fx® Knowledge Coach functionality allows auditors/accountants to use the Knowledge-Based-Audit methodology more efficiently by eliminating the need for duplicate entry of the same information, tailoring audit documentation to each particular engagement, and documenting the link between risks identified and procedures performed. AUD-100 Tailoring Question Workpaper is a document in Knowledge Coach that presents engagement-level questions designed to aid in tailoring the engagement documentation to fit each client. Completing the questions helps the auditor avoid duplication and unnecessary workpapers.
- ◆ Before you begin your audit, please review the guidance in AUD-103 Overall Audit Program. This workpaper is intended to be your road map through a Knowledge-Based Audit methodology. You should start your audit with AUD-100 Tailoring Question Workpaper and AUD-103 Overall Audit Program.
- ◆ Risks can be captured via the Risk Summary task pane from any Knowledge Coach workpaper by the current editor of KBA-502 Summary of Risk Assessments for the Financial Statement title and KBA-5023 Summary of Risk Assessments of Noncompliance for the Compliance title. This allows the user to continuously assess risks during the engagement. Several workpapers prompt the consideration of the presence of risks, but the Risk Summary task pane must be used to document those risks. All documented risks flow to the Risk Summary. To ensure risks show in findings tables, make sure to check the "workpaper identified in" field of the Risk pane.
- ◆ Information Flow helps cut down on the time spent duplicating information across forms. In addition, the flow of consistent information ensures that information and updates to information are not missed between workpapers. Drill-down functionality helps the user navigate quickly to the source of the information, aiding in the review of the audit file.
- ◆ Diagnostics help keep track of unresolved issues like unanswered questions, incomplete risks, program steps not linked to risks or relevant assertions, missing workpaper, and more.
- ◆ **Links to Accounting Research Manager (ARM)**-If you subscribe to an ARM library that includes audit content, you can link directly to source material from Resources within Knowledge Coach workpapers. These links have been updated to reference to the accounting standards under the FASB Accounting Standards Codifications and the auditing standards issued by the AICPA. Also, if you subscribe to the Knowledge-Based Audits of HUD Multifamily Housing Programs Guide on ARM, you can take advantage of links to the audit guide material from within the Knowledge Coach documents.
- ◆ Interpretive Guidance is integrated into each Knowledge Coach template through the Tips view of each new task pane. Informational features include Practice Points, Examples, Optional Workpapers, and Resources to help auditors work more effectively and efficiently. You can also navigate from Resources within a document or the tip pane directly to CCH's Accounting Research Manager and industry audit guides by simply clicking on the Reference.
