

2008 Knowledge-Based Audits of Governmental Entities

Description

AICPA's Auditing Standards Board's new Risk Assessment Standards are supported with new practice aids and tools to make the most of the latest technology to address the new audit requirements and subsequent processes auditors will need to implement. The KBA will assist auditors of governmental entities by:

- ◆ Facilitating compliance with GAAS
- ◆ Encouraging more effective audits through customized programs and comprehensive practice aids
- ◆ Helping auditors to focus on and respond to identified risks.
- ◆ Enhancing audit documentation

The 2008 Knowledge-Based Audits of Governmental Entities incorporates the knowledge based audit methodology developed to support the risk assessment standards.

The key components of the KBA Methodology include:

- ◆ An **Overview** that guides auditors through the new methodology.
- ◆ **Audit Programs** that take auditors through related steps and procedures.
- ◆ **Practice Aids** to help auditors complete steps or processes outlined in related documents.
- ◆ **Auditor's Reports** that provide a variety of sample auditor's opinions on audited financial statements.
- ◆ **Correspondence Documents** that provide sample letters to be used in many common situations.

Interpretive Guidance is integrated into each Knowledge Tools template through the Tips view of each new task pane. Informational features include Practice Points, Audit Alerts, Examples, Optional Workpapers, and References to help auditors work more efficiently.

The 2008 Edition of Knowledge-Based Audits of Governmental Entities is current through SAS-114.
