

Daily Time Report

Overview

The Daily Time Report allows the user the opportunity to review the time and expense transactions entered. An administrator can use this report to verify that the information entered by each employee is correct and complete. A timekeeper can use this report to check their work or as a record of the time entered.

Data Files Used

- CLIENT** The *Name1* field is used to print the client name on each transaction.
FIRM The *FirmName* field is used to print the firm name on each page.
STAFF The *FirstName*, *MiddleName* and *LastName* fields are used to print the employee name.
TIME This file contains the Time and Expense transactions entered by the timekeeper.
WORKCODE The *Name* field is used to print the Work Code description on each transaction.

Options

This report can be accessed from the Time Entry window off the Entry menu by selecting “Daily Time Report...” or by clicking on the speed button. This form allows the user to select the information to include on the report. From the Select groupbox, the user can select by Employee, by Reviewer or by Date. If the user only has rights to view own then the Employees range is filled in and disabled. From the Options groupbox, the user can select the status of the transactions to print, elect to include expenses, show project info, show the transaction description and notes. If Use Projects is not checked in the Firm Properties, then Show Project Info is unchecked and disabled. If Show Project Info is checked, then a second page header line will print for Project, Description and Task. In the detail a second line will print under the time transaction with the Project ID, Description and Task ID. From the Printers groupbox the user can choose the printer to print the report on. If the user selects Preview then the form in Figure 2 will be shown.

The screenshot shows a Windows-style dialog box titled "Daily Time Report". It contains three main sections: "Select", "Options", and "Printers".

- Select:** Includes fields for "Employees", "Reviewers", and "Dates". Each field has a "To" field and a "List" checkbox. The "Dates" field is pre-filled with "5 /19/98".
- Options:** A group of checkboxes for filtering transactions: "Unsubmitted", "Submitted", "Reviewed", "Posted", "Include Expenses", "Show Project Info", "Show Description", and "Show Notes".
- Printers:** Shows the selected printer as "HP LaserJet 5Si on \\PACSNT4\PACS HP5Si" and a "Printer Setup" button.

At the bottom of the dialog are four buttons: "Print", "Preview...", "Close", and "Help".

Figure 2

Refer to Figure 2 for an example of the report layout. The transactions are forced to be sorted by employee ID, then date then by transaction type with Time printing before Expenses. There are subtotals of hours and amounts on each sort level. If Expenses are not included then there is no subtotal on the transaction type, since it will subtotal on date. On the date and employee ID subtotals there is a summary of the chargeable, non-chargeable and expenses. The report prints grand totals of hours and amounts with a summary, if more than one employee is selected.
