Overview

Purpose of the Report

This report provides a comprehensive analysis of each client's WIP. Use this report when you want to make detailed billing decisions. This report is similar to the WIP Ledger Billing Worksheet, but with the following changes:

- a 12 or 24 period summary of Production, Invoices, MarkUps/Downs, and Payments
- the ability to print work code and employee names
- the ability to print current and year-to-date hours with time and expense totals
- a WIP Reconciliation
- a landscape print format.

Note: Because this report is used to provide real time information to bill clients, it is a current state, date based report.

When to Produce the Report

Produce this report before billing to make line item billing decisions. Both the WIP Ledger and the Complete Ledger can be used instead of the Super WIP to make line item billing decisions. You would choose the Super WIP over the WIP Ledger if you wanted the historical information provided by the period comparison, the WIP Reconciliation or the current and year-to-date time and expense hours and amount totals. You would choose the Super WIP over the Complete Ledger if you did not want or need the A/R detail or the additional period comparison reports it provides.

Permissions Required to Access the Report

An employee must have 'Billing' checked in the Employee's Permissions to be able to produce this report.

Comparing Reports

Because the Super WIP Ledger is a date based report, it may not match period based reports such as WIP Reconciliation, A/R Reconciliation, Employee Time Analysis, Period Comparison or General Ledger.

Sort Options Available

You can determine the order and which subtotals appear on the report by choosing one or more of the following fields:

- Client-Engagement
- Client ID
- Client Engagement
- Billing Engagement
- Client Name
- Partner
- Manager
- Biller
- Billing Reviewer
- Accountant
- Group
- Office
- NAICS Code
- Entity
- Client Type1
- Client Type2
- Client Type1 1
- Client Type1 2
- Client Type1 3
- Client Type1 4
- Client Type1 5
- Client Type2 1
- Client Type2 2
- Client Type2 3
- Client Type2 4
- Client Type2 5

Select Options Available

You can determine which clients will appear on the report by entering a range or a list in one or more of the following fields:

- Client ID
- Client Engagement
- Billing Engagement
- Partner
- Manager
- Biller
- Billing Reviewer

- Accountant
- Group
- Office
- NAICS Code
- Entity
- Client Type1
- Client Type2
- Employees
- Work Codes
- Dates

Format Options

Presentation Options - General Options Tab

You can select the items you want included on your report:

- Show Period Comparison - a 12 or 24 period summary of Production, Invoices, MarkUps/Downs, and Payments.
- Show Description - prints the Invoice Description for the WIP transaction.
- Show Notes - prints the Internal Notes for the WIP transaction.
- Show WIP Reconciliation - prints the PTD and YTD WIP Reconciliation for the client engagement.
- Show Project Summary - prints a summary of the time and expense WIP detail subtotaled by project.
- Show Category Summary - prints a summary of the time and expense WIP detail subtotaled by category.
- Show Employee Summary - prints a summary of the time WIP detail subtotaled by employee.
- Show Billing Notes - prints the Internal Billing Notes for the client billing engagement from Client Properties.
- Show Invoice Text - prints blank lines on the report so you can manually enter text and amounts for billing paragraphs for invoices.

You can choose the format of the report:

- Aging - if 90 days is selected then the aging after the WIP total will be aged into Current, 30 - 59 Days, 60 - 89 Days and 90/Over. If 120 days is selected then the aging after the WIP total will be aged into Current, 30 - 59 Days, 60 - 89 Days, 90 - 119 and 120/Over.
- Period Comparison - if 12 Period Comparison is selected then 12 periods of information will be printed otherwise 24 periods of information will be printed.
- Period Ending Date - this allows you to select the ending date for the period comparison report. You may select the Current Period, the Fiscal Year End or any period end date set up in Period Setup.

Sort Options Available for WIP Detail - WIP Options Tab

- Engagement
- Project
- Task
- Category

- SubCategory
- Work Code
- Employee
- Date
- Amount

- (21) From: Phone in Client Properties

{ Period Comparison Section }

- (22) Calculated fields: The end of period dates for the 12 periods prior to and including the PeriodNum equal to the Period End Date selected at runtime.
- (23) Calculated field: Prints the text 'Production' if the client has posted time or expense in the periods displayed in (22).
- (24) Calculated fields: The sum of AdjAmount field in WIP records with TranType 'T' or TranType 'E' and PeriodNum equal to the period number that matches the period end date displayed above the amount.
- (25) Calculated field: The sum of AdjAmount field in WIP records with TranType 'T' or TranType 'E' and PeriodNum greater than or equal to the period number that matches the first period end date displayed and less than or equal to the period number that matches the last period end date displayed.
- (26) Calculated field: Prints the text 'Markups/Downs' if the client has posted invoices in the periods displayed in (22).
- (27) Calculated fields: The sum of Markup field from the AR records with Type 'I' and Status 'P' and PeriodNum equal to the period number that matches the period end date displayed above the amount.
- (28) Calculated field: The sum of Markup field from the AR records with Type 'I' and Status 'P' and PeriodNum greater than or equal to the period number that matches the first period end date displayed and less than or equal to the period number that matches the last period end date displayed.
- (29) Calculated field: Prints the text 'Billings' if the client has posted invoices in the periods displayed in (22).
- (30) Calculated fields: The sum of FinalBillAmt field from the AR records with Type 'I' and Status 'P' and PeriodNum equal to the period number that matches the period end date displayed above the amount.
- (31) Calculated field: The sum of FinalBillAmt field from the AR records with Type 'I' and Status 'P' and PeriodNum greater than or equal to the period number that matches the first period end date displayed and less than or equal to the period number that matches the last period end date displayed.
- (32) Calculated field: Prints the text 'Payments' if the client has posted payments in the periods displayed in (22).
- (33) Calculated fields: The sum of Amount field from the CASH records with Type 'P' and Status 'P' and PeriodNum equal to the period number that matches the period end date displayed above the amount.
- (34) Calculated field: The sum of Amount field from the CASH records with Type 'P' and Status 'P' and PeriodNum greater than or equal to the period number that matches the first period end date displayed and less than or equal to the period number that matches the last period end date displayed.

{ WIP Detail Section }

- (35) From: Project field in the WIP file.
- (36) From: TaskID field in the WIP file.
- (37) From: TranDate field in the WIP file.
- (38) From: WorkCode field in the WIP file.
- (39) From: Name field in Work Code Properties.
- (40) From: TranType field in the WIP file.
- (41) From: EmpID field in the WIP file.
- (42) Calculated field: If the Last Name from Employee Properties is not blank then it prints the Last Name with a ',' followed by the First Name.
- (43) From: InterimInvoiceNumber field in the WIP file.
- (44) Calculated field: The Hours field from the WIP file divided by 100.
- (45) From: AdjRate field in the WIP file.
- (46) From: AdjAmount field in the WIP file.
- (47) From: Description field in the WIP file.
- (48) From: Notes field in the WIP file.

{ WIP Detail Totals }

- (49) Calculated field: The sum of Hours field divided by 100 in WIP records with TranType 'T' and with a TranDate greater than the current end of period date less 30 days.
- (50) Calculated field: The sum of AdjAmount field in WIP records with TranType 'T' and with a TranDate greater than the current end of period date less 30 days.
- (51) Calculated field: The sum of AdjAmount field in WIP records with TranType 'E' and with a TranDate greater than the current end of period date less 30 days.
- (52) Calculated field: The sum of Hours field divided by 100 in WIP records with History 'F' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (53) Calculated field: The sum of AdjAmount field in WIP records with History 'F' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (54) Calculated field: The sum of Hours field divided by 100 in WIP records with TranType 'T' and with a TranDate greater than to the prior year end and less than or equal to the current year end.
- (55) Calculated field: The sum of AdjAmount field in WIP records with TranType 'T' and with a TranDate greater than the prior year end and less than or equal to the current year end.
- (56) Calculated field: The sum of AdjAmount field in WIP records with TranType 'E' and with a TranDate greater than the prior year end and less than or equal to the current year end.
- (57) Calculated field: The sum of AdjAmount field in WIP records with History 'F' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and with a TranDate greater than the current end of period date less 30 days.
- (58) Calculated field: The sum of AdjAmount field in WIP records with History 'F' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and with a TranDate greater than the current end of period date less 60 days and less than or equal to the current end of period date less 30 days.
- (59) Calculated field: The sum of AdjAmount field in WIP records with History 'F' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and with a TranDate greater than the current end of period date less 90 days and less than or equal to the current end of period date less 60 days.
- (60) Calculated field: The sum of AdjAmount field in WIP records with History 'F' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and with a TranDate greater than the current end of period date less 120 days and less than or equal to the current end of period date less 90 days.
- (61) Calculated field: The sum of AdjAmount field in WIP records with History 'F' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and with a TranDate less than or equal to the current end of period date less 120 days.

{ WIP Reconciliation }

- (62) Calculated field: The sum of the OpeningCurrentWIPBalance from the Client record.
- (63) Calculated field: The sum of the AdjAmount field in WIP records with TranType 'T' and PeriodNum equal to the current period.
- (64) Calculated field: The sum of the AdjAmount field in WIP records with TranType 'E' and PeriodNum equal to the current period.
- (65) Calculated field: The sum of the BilledAmount field in WIP records with TranType 'T' or 'E' and BilledPeriodNum equal to the current period plus the sum of the AdjAmount field in WIP records with TranType 'B' and Status 'P' and PeriodNum equal to the current period.
- (66) Calculated field: The sum of the MarkupAmount field in WIP records with TranType 'T' or 'E' and BilledPeriodNum equal to the current period.
- (67) Calculated field: The sum of the AdjAmount field in WIP records with TransferStatus 'T' or 'R' and PeriodNum equal to the current period plus the WIPCurrentCorrection from the Client record if the CorrectionPeriodDate is in the current period.
- (68) Calculated field: Prints a '#' if the WIPCurrentCorrection is included in the Transfers column.
- (69) Calculated field: The sum of the current period Opening WIP, Time, Expenses, Billings, MarkUps, MarkDowns, and Transfers columns.
- (70) Calculated field: Prints an '*' if the Closing WIP is not equal to the sum of the WIPBalance from the Client record less any future dated WIP activity.
- (71) Calculated field: The sum of the OpeningYTDWIPBalance from the Client record.
- (72) Calculated field: The sum of the AdjAmount field in WIP records with TranType 'T' and PeriodNum is greater than last year's period end number and less than or equal to the current period number.
- (73) Calculated field: The sum of the AdjAmount field in WIP records with TranType 'E' and PeriodNum is greater than last year's period end number and less than or equal to the current period number.
- (74) Calculated field: The sum of the BilledAmount field in WIP records with TranType 'T' or 'E' and BilledPeriodNum is greater than last year's period end number and less than or equal to the current period number plus the sum of the AdjAmount field in WIP records with TranType 'B' and Status 'P' and PeriodNum is greater than last year's period end number and less than or equal to the current period number.
- (75) Calculated field: The sum of the MarkupAmount field in WIP records with TranType 'T' or 'E' and BilledPeriodNum is greater than last year's period end number and less than or equal to the current period number.
- (76) Calculated field: The sum of the AdjAmount field in WIP records with TransferStatus 'T' or 'R' and PeriodNum is greater than last year's period end number and less than or equal to the current period number plus the WIPYTDCorrection from the Client record if the CorrectionPeriodDate is greater than last year's period end number and less than or equal to the current period number.
- (77) Calculated field: Prints a '#' if the WIPYTDCorrection is included in the Transfers column.
- (78) Calculated field: The sum of the current year Opening WIP, Time, Expenses, Billings, MarkUps, MarkDowns, and Transfers columns.
- (79) Calculated field: Prints an '*' if the Closing WIP is not equal to the sum of the WIPBalance from the Client record less any future dated WIP activity.

{ Project Summary }

- (80) Calculated field: If the Project Name is blank but Project ID is not then it prints 'Deleted Project ({Project ID})'. If the Project ID is blank then it prints 'Blank Project'. Otherwise it prints the Project Name.
- (81) Calculated field: The sum of the Hours field divided by 100 from WIP Records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Project equal to the Project Name printing on the same line.
- (82) Calculated field: The sum of AdjAmount field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Project equal to the Project Name printing on the same line.

- (83) Calculated field: The sum of Cost field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Project equal to the Project Name printing on the same line.
- (84) Calculated field: The sum of AdjAmount field less Cost field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Project equal to the Project Name printing on the same line.
- (85) Calculated field: The sum of AdjAmount field divided by the sum of Cost field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Project equal to the Project Name printing on the same line.
- (86) Calculated field: The sum of the Hours field divided by 100 from WIP Records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (87) Calculated field: The sum of AdjAmount field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (88) Calculated field: The sum of Cost field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (89) Calculated field: The sum of AdjAmount field less Cost field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (90) Calculated field: The sum of AdjAmount field divided by the sum of Cost field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.

{ Category Summary }

- (91) Calculated field: If the Category Name is blank but Category Code is not then it prints 'Deleted Category ({Category Code})'. If the Category Code is blank then it prints 'Blank Category'. Otherwise it prints the Category Name.
- (92) Calculated field: The sum of the Hours field divided by 100 from WIP Records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Category equal to the Category Name printing on the same line.
- (93) Calculated field: The sum of AdjAmount field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Category equal to the Category Name printing on the same line.
- (94) Calculated field: The sum of Cost field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Category equal to the Category Name printing on the same line.
- (95) Calculated field: The sum of AdjAmount field less Cost field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Category equal to the Category Name printing on the same line.
- (96) Calculated field: The sum of AdjAmount field divided by the sum of Cost field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Category equal to the Category Name printing on the same line.
- (97) Calculated field: The sum of the Hours field divided by 100 from WIP Records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (98) Calculated field: The sum of AdjAmount field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (99) Calculated field: The sum of Cost field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (100) Calculated field: The sum of AdjAmount field less Cost field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (101) Calculated field: The sum of AdjAmount field divided by the sum of Cost field in WIP records with History 'F' and TranType 'T' or 'E' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.

{ Employee Summary }

- (102) Calculated field: If the Employee Name is blank but Employee ID is not then it prints 'Deleted Employee ({Employee ID})'. If the Employee ID is blank then it prints 'Blank Employee'. Otherwise it prints the Employee Name.
- (103) Calculated field: The sum of the Hours field divided by 100 from WIP Records with History 'F' and TranType 'T' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Employee equal to the Employee Name printing on the same line.
- (104) Calculated field: The sum of AdjAmount field in WIP records with History 'F' and TranType 'T' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Employee equal to the Employee Name printing on the same line.
- (105) Calculated field: The sum of Cost field in WIP records with History 'F' and TranType 'T' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Employee equal to the Employee Name printing on the same line.
- (106) Calculated field: The sum of AdjAmount field less Cost field in WIP records with History 'F' and TranType 'T' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Employee equal to the Employee Name printing on the same line.
- (107) Calculated field: The sum of AdjAmount field divided by the sum of Cost field in WIP records with History 'F' and TranType 'T' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T' and Employee equal to the Employee Name printing on the same line.
- (108) Calculated field: The sum of the Hours field divided by 100 from WIP Records with History 'F' and TranType 'T' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (109) Calculated field: The sum of AdjAmount field in WIP records with History 'F' and TranType 'T' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (110) Calculated field: The sum of Cost field in WIP records with History 'F' and TranType 'T' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (111) Calculated field: The sum of AdjAmount field less Cost field in WIP records with History 'F' and TranType 'T' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.
- (112) Calculated field: The sum of AdjAmount field divided by the sum of Cost field in WIP records with History 'F' and TranType 'T' and BillingStatus 'U' or 'I' and TransferStatus blank or 'T'.

{ Billing Notes }

- (113) From: Internal Billing Notes in Client Properties.

Glossary

Current state report - a report that reflects the data as it is now, without regard to what happened during the period or year. See also Point in time report.

Date based report - a report that filters transactions or accumulates amounts based on the date of the transaction rather than when the transaction was posted. For example, if a transaction dated in January was not posted until after January had been closed, a date based report would report as if the transaction was entered in January. See also Period based report.

Future dated WIP activity - any WIP activity with a PeriodNum or BilledPeriodNum greater than the current period.

Period based report - a report that filters transactions or accumulates amounts based on when the transaction was posted rather than the date of the transaction. For example, if a transaction dated in January was not posted until after January had been closed and the current period was February, a period based report would report as if the transaction was entered in February. See also Date based report.

Point in time report - a report that reflects the data as it was posted during a period of time, without regard to the current state of the data. For example, the PTD WIP Reconciliation shows how much time was posted to an account during the current period, not how much is left in the account when the report is printed. See also Current state report.

PTD - Period-to-date.

WIP activity - consists of Time, Expenses, Billings, MarkUps, MarkDowns, and Transfers in WIP.

YTD - Year-to-date.
