ProSystem *fx* Practice PDA Time Entry

This Practice application can be installed on your PDA, and is a handy tool that gives you access to client and contact information, time entry screens and project information. PDA Time Entry leverages Palm HotSync® technology to accomplish downloading information from Practice to the PDA, and uploading transaction data from the PDA to Practice.

NOTE: An updated CCH Permission Disk is required to use the PDA Time Entry product. Please contact your ProSystem *fx* Sales Representative at 1-800-PFX-9998 (1-800-739-9998), option 1.

The following PDA downloads are currently available. Click on the appropriate document link or your version of ProSystem *fx* Practice:

- **PDA Installation Instructions.pdf**   PDADOCs.zip
  PDA Release Bulletin.pdf

- **Practice 8.1**   PDAInst81.zip

- **Practice 7.1 & 8.0**   PDAInst71.zip

- **Practice 7.0**   PDAInst70.zip

- **Practice 6.2, 6.1, 6.0**   PDAInst6X.zip

- **Practice 5.3**   PDA_Inst.zip

- A **File Download** dialog will open. Select the **Save** choice.

- A **Save As** dialog will open. Enter or browse to a location to save the Program Update file.

- Click **Save** to begin the download.

- When the download is complete, you may exit the web site. Browse to the directory in which you saved the Program Update file, and double-click on the file **PDA<xxxx>.zip** to extract the file noted above.

If you have questions regarding this update, please contact our Technical Support Group at 1-800-739-9998, option 7 for Practice Support.
