

ProSystem fx Tax v. 2008.05040 2008 Montana Stimulus Scan

An issue has been identified that impacts all Montana returns that itemize and include a 2008 Stimulus payment. The Pro Forma from 2008 to 2009 did not include the subtraction of the stimulus payment as Federal Income Tax Paid in 2008, so this amount is overstated on Montana > General > Additions > Federal Income Tax Paid in 2008 (Interview Form MT2, Box 42).

This scan identifies all 2008 Montana individual returns with itemized deductions and a 2008 Stimulus payment.

To install this scan:

1. Download the scan program into your ?:\WFX32 directory.
(where ? is the drive letter where your ProSystem fx programs reside)

Download W08IMTSS.EXE

2. From Start/Run type ?:\WFX32\W08IMTSS.EXE
(where ? is the drive letter where ProSystem fx programs are installed)

This self-extracting executable file will open a dialog allowing the user to select the location where the scan files will be extracted. The default location is C:\Wfx32 and should be changed to the user's Wfx32 directory location as appropriate.

To run this scan:

1. From Start/Run type ?:\WFX32\2008MT ?
(where ? is the drive letter where ProSystem fx programs are installed)
Please remember, do not add a colon " : " after the last question mark (drive letter).
2. The scan output will automatically be sent to a text file which will be opened in Notepad. You can then use Notepad to print a copy of the scan output.
