

ProSystem fx Tax v. 2008.05040 2008 New York DPAD Scan

For most of the 2008 tax season, the New York program required entries on the New York input to add back federal DPAD amounts. Beginning with release 2008.04040, this calculation occurs automatically; overrides are available on New York input.

This scan identifies returns calculated prior to Release 2008.04040 in which there is a DPAD deduction on the federal return and New York is in the return.
