

## **ProSystem fx Tax v. 2009.04040 Minnesota 1040 Schedule M1NR Interest Scan**

The Minnesota Department of Revenue is issuing notices on 2009 tax returns for nonresident taxpayers who have filed a Schedule M1NR that does not include interest and ordinary dividend income received as a shareholder or partner as reported by the S Corporation or partnership. Interest and ordinary dividend income earned by a nonresident through most sources are not taxed by Minnesota, but interest and ordinary dividend income from Minnesota sources earned by a nonresident as a shareholder of an S corporation or as a partner of a partnership are taxable.

This scan will identify 2009 Minnesota individual returns with interest income from Minnesota sources earned by a nonresident as a shareholder of an S corporation or as a partner of a partnership. Because this issue applies to dividend AND interest income, you will need to run this scan and the Minnesota 1040 Schedule M1NR Dividend Scan for a complete list of affected returns.
