

ProSystem fx Tax v. 2009.03060

Virginia 1065 Deferred Income Addition Scan

On March 31, 2010, Virginia adopted a modified cancellation of debt income calculation in which an election can be made to include 1/3 of the income in each of a taxpayer's 2009, 2010, and 2011 tax returns. Initially, Virginia did not conform with this Federal provision. Original issue discount will not be affected by this Virginia change but will be detected by the scan so the preparer can verify those returns.

This scan identifies Partnership returns that may have COD additions for Virginia.
