

## **ProSystem fx Tax v. 2010.03050**

### **The 2010 Federal Elections E-filing Scan**

On Release 2010.03030, a new disqualifying diagnostic began issuing for returns with elections requiring a signature, as these are not eligible for electronic filing. Because of this Form 8879 is no longer to be treated as a valid signature document for purposes of these elections. For returns containing federal elections that were previously electronically filed in 2010, we recommend preparers collect the appropriate signatures and file the elections on paper with the IRS.

This scan identifies 2010 Individual returns containing federal elections that were previously electronically filed prior to Release 2010.03030.

#### **To install this scan:**

1. Download the scan program into your ?:\WFX32 directory.  
(where ? is the drive letter where your ProSystem fx programs reside)

#### **Download W10IFDEL.EXE**

2. From Start/Run type ?:\WFX32\W10IFDEL.EXE  
(where ? is the drive letter where ProSystem fx programs are installed)  
This self-extracting executable file will open a dialog allowing the user to select the location where the scan files will be extracted. The default location is C:\Wfx32 and should be changed to the user's Wfx32 directory location as appropriate.

#### **To run this scan:**

1. From Start/Run type ?:\WFX32\FEDELECT ?  
(where ? is the drive letter where ProSystem fx programs are installed)  
Please remember, do not add a colon " : " after the last question mark (drive letter).
2. The scan output will automatically be sent to a text file which will be opened in Notepad. You can then use Notepad to print a copy of the scan output.
