

ProSystem fx Tax 2013 Individual Schedule EIC Calculation Changes Scan

The following scan will search for 2013 Individual returns where there is an issue with the earned income credit that was not calculated correctly before release 2013.02040. This applies to certain returns with filing status that are single, head of household, and qualifying widower where earned income is within one of four \$50 ranges.

This scan will detect 2013 Individual returns with filing status of single, head of household, and qualifying widows where issue with earned income credit exists.

To install this scan:

1. Download the scan program into your ?:\WFX32 directory.
(where ? is the drive letter where your ProSystem fx programs reside)

Download W13IFDEC.EXE

2. From Start/Run type ?:\WFX32\W13IFDEC.EXE
(where ? is the drive letter where ProSystem fx programs are installed)
This self-extracting executable file will open a dialog allowing the user to select the location where the scan files will be extracted. The default location is C:\Wfx32 and should be changed to the user's Wfx32 directory location as appropriate.

To run this scan:

1. From Start/Run type ?:\WFX32\ifdeic ?
(where ? is the drive letter where ProSystem fx programs are installed)
Please remember, do not add a colon " : " after the last question mark (drive letter).
2. The scan output will automatically be sent to a text file which will be opened in Notepad. You can then use Notepad to print a copy of the scan output.
