Electronic Filing Updates

Approved Products Available on this Release

The following federal and state products are approved and available on this release:

S Corporation

Federal Schedules K-2 and K-3 are scheduled to be available for electronic filing through XML on the July 24th, 2022 update. This aligns with the IRS opening date for Schedules K-2 and K-3 for electronic filing through XML.

Partnership

Federal Schedules K-2 and K-3 are now available for electronic filing through XML with the return. Previously, CCH ProSystem fx Tax was limited to a 50-partner limit as a PDF autogenerated attachment. With this release, we will no longer generate PDF attachments for Schedules K-2 and K-3. Beginning with this release, Schedules K-2 and K-3 can only be filed through the electronic filing XML and we currently have a 250-partner limit. Upload speed of the return may be affected by the size/information in the return. These delays may appear to the user as longer processing times. With larger returns, a message of "Not Responding" may display in the application. If you see a delay, please wait for the upload to complete before attempting to interrupt the upload. In future releases later this year, the partner limit is planned to be increased.
