Overview

The Field Guide is designed to be used as a quick reference for experienced users of ProSystem fx® Engagement. This Field Guide is ideal to use as a supplement to our training courses. It describes the most common way to perform tasks.

Refer to the ProSystem fx Engagement User Guide for a more exhaustive explanation of these functions and all of the ways to perform them. You can access the User Guide from the Help Menu in ProSystem fx Engagement.
There are two views for the local file room: Client Index view and Engagement Today view.

Client Index View

1. **Client Index Pane**
   This area of the File Room displays client folder information. The Client Folders hold your Engagement binders.

2. **Contents Pane**
   This area displays the contents of the selected item in the Client Index Pane. These could be client folders or binders. You can sort items shown in this pane by clicking the column headers.

3. **Remote File Rooms Pane**
   This area contains three tabs: CFR (Central File Room), Staff, and Buddy List. If you have logged in from the Field, you will not see the CFR tab. The CFR tab contains a list of all CFRs set up for the firm. The Staff tab lists all staff members, and the Buddy List shows the staff members you have added to your Buddy List.
Engagement Today View

Note: Engagement Today is not available from a shared file room.

Engagement Today displays user-level diagnostic information that summarizes key statistics regarding the binders in your local file room. Engagement Today also displays the Tip of the Day.

The Engagement Today view displays five panes:

1. My Recent Binders
   Displays links to the last four binders used.

2. By Lead Partner
   Displays a list of binder links sorted by lead partner from the binder properties.

3. Other Highlights
   Displays a list of binder links sorted by specific criteria.

4. By Engagement Type
   Displays a list of binder links sorted by the categories listed.

5. Tip of the Day
   Displays suggestions for using the program more efficiently. You can hide the Tip of the Day by clicking Hide Tips. Click Previous and Next to navigate through the tips.
To open a binder, double-click the binder in the file room. The Binder window is made up of four views: Binder View, Notes Summary View, Sign Off Summary View, and Current Editor View (or Live Editor View).

**Binder View**

The Binder View displays the contents of the binder and the status of the workpapers in the binder.

1. **Shortcut Bar**

The Shortcut Bar provides quick access to many Engagement functions, including workpapers, the Binder Snapshot, and the Trial Balance Snapshot. It also includes links to ProSystem fx Tax (if installed), IntelliConnect, Accounting Research Manager, the CCH Tax Research Network, and FAQs, among other links.
Binder Index Pane

The Binder Index Pane includes the following folders:

- **Binder**. The Binder name displays beside one of the following images, based on the Document Completion Date:
  - The Document Completion Date is not approaching and is not past due.
  - The Document Completion Date is approaching.
  - The Document Completion Date is past due.

- **Unfiled Workpapers**. This folder stores workpapers that have not been filed yet. Reports generated by ProSystem fx Engagement originally appear here. You can then move each report to the desired workpaper tab section.

- **Conflicts**. This folder stores workpapers in conflict after synchronization or from binder packages that have been received.

- **Incompatible Workpapers**. This folder displays if you have Knowledge Coach installed. It stores Knowledge Coach workpapers that could not be filed in the active binder because the title version of the workpaper is not compatible with the title version of the binder.

- **Published Workpapers**. This folder stores copies of Word or Excel workpapers where the formulas (e.g., trial balance links) have been automatically converted to values.

- **Trash**. This folder contains the workpapers you delete in ProSystem fx Engagement. If you have deleted a workpaper by mistake, you can restore it and it will be filed back to the appropriate tab.

**Note**: If you are Current Editor of a binder, a current editor designation arrow displays on top of the appropriate binder icon above.
The Binder folder contains tabs that organize the workpapers. Workpaper properties display in columns to the right of the Binder Index column and include the following:

- **Index Number and Name.** The alphanumerical index number is optional. The name is required, and it describes the content of the workpaper.
- **Locked.** A locked workpaper is read-only.
- **Frozen Links.** If the Engagement links in the selected workpaper are frozen, this icon displays.
- **Note.** If a note has been created for this workpaper or workpaper tab, this icon displays.
- **Modified after Reviewer Sign Off.** If the administrator has chosen to flag workpapers that have been modified after a reviewer has signed off, this icon displays as appropriate.
- **Prepared By.** When a workpaper is signed off by a preparer, the date and preparer’s initials display.
- **Reviewed By.** When a workpaper is signed off by a reviewer, the date and reviewer’s initials display.
- **2nd Reviewed By.** When a workpaper is signed off by a second reviewer, the date and reviewer’s initials display.
- **File Modified Date.** The date and time the workpaper was last changed.
- **Current Editor** (if viewing a non-shared file room). The staff member who has checked out this workpaper.
- **Live Editor** (if viewing a shared file room). The staff member who has this workpaper open. If no staff member has the workpaper open, then <Available> displays if the file room’s host is current editor of the workpaper. <Unavailable> displays if the host is not the current editor.
- **Assigned To.** The team member who the current editor has assigned the workpaper to prior to synchronizing. (Does not display in shared file rooms.)
3 Notes Pane

When a workpaper or tab with a note is selected in the Binder window, information about the following displays: subject, number of responses, who it is from and assigned to, the date created, who cleared the note, and the date cleared.

Note: If Knowledge Coach is installed, a Diagnostic pane also displays above the Notes pane.

Notes Summary View

The Notes Summary View displays all of the notes that exist in the binder. The Notes are broken down into three types: Team Notes, Open Items, and Notes for Next Period.
Sign Off Summary View

The Sign Off Summary View displays the level of review for all of the workpapers that exist in the binder. The level of review is in three stages: In Process, Ready for Review, and Reviewed. Team members that have signed workpapers off are listed, with the sign off date, under each workpaper.
Current Editor View

If you are viewing a non-shared local file room, the Current Editor View tab is available. The Current Editor View displays all of the team members assigned to the binder. Displayed under each team member is a list of the workpapers they have checked out. Any workpaper not checked out to a team member appears in the Unassigned section.

Live Editor View

If you are viewing a shared local file room, the Live Editor View tab is available. The Live Editor View displays all the staff members who are currently working on a workpaper in the binder. Under each staff member is a list of the workpapers he or she is working on. Any workpapers that are not being worked on are listed in the Unassigned section.
The Engagement toolbar in the File Room window includes the following buttons:

- **New Client.** Creates a new client folder.
- **New Binder Wizard.** Creates a new binder.
- **Assign Binder Staff.** Adds team members to a binder.
- **Open.** Opens the selected item.
- **Open Trial Balance.** Opens the trial balance in a selected binder.
- **Cut.** Cuts item(s) to the clipboard.
- **Copy.** Copies item(s) to the clipboard.
- **Paste.** Pastes item(s) from the clipboard.
- **Expand All.** Expands the entire tree.
- **Collapse All.** Collapses the entire tree.
- **Properties.** Displays properties of a selected item.
- **Refresh.** Refreshes the local file room or central file room.
- **Create Binder Package.** Creates a single compressed file of a binder.
- **Receive Binder Package.** Receives a binder package.
- **Synchronize Binder.** Opens the Synchronize Binder Wizard.
Express Synchronization. Automatically synchronizes the binder to the central file room without opening the Synchronize Binder Wizard.

Tax Software Interface. Exports trial balance data to tax vendors.

Finalize Binder. Opens the Finalize Binder Wizard for the selected binder.

Roll Forward. Opens the Roll Forward Wizard for the selected binder.

Client Inquiry. Opens the ProSystem fx Practice Client Inquiry Module.

Engagement Today. Displays the Engagement Today view.

Client Index. Displays the Client Index view.

Client Group Filter. Filters the clients in the file room by client group.

Engagement Toolbar – Binder Window

The Engagement toolbar displayed in the Binder window has the following buttons:

**New Tab.** Creates a new workpaper tab.

**New Workpaper from Template.** Creates a new workpaper from predefined templates.

**New Workpaper from File.** Inserts a new workpaper from an Excel, Word, or other file type into a binder.

**New Trial Balance.** Creates a new trial balance.
**New Manual Workpaper.** Creates a workpaper to serve as a placeholder for a physical workpaper not inserted into the Binder.

**New Placeholder.** Creates a name and index number for a workpaper that will be added at a later date from a file or scanned document.

**New Knowledge Tools Workpaper.** Creates a new workpaper from the Knowledge Tools Workpaper Templates. Requires installation of Knowledge Tools titles.

**New Knowledge Coach Workpaper.** Creates a new workpaper from the Knowledge Coach Workpaper Templates. Requires installation of Knowledge Coach titles.

**New CCH Workpaper.** Creates a new workpaper from the CCH Workpaper Templates.

**New Workpaper from Scanner.** Creates a new workpaper from a TWAIN-compliant scanner.

**Open.** Opens the selected item.

**Open Trial Balance.** Opens the trial balance. If there is more than one trial balance, a list appears for you to select from.

**Print.** Prints the selected workpaper or report.

**Cut.** Cuts item(s) to the clipboard.

**Copy.** Copies item(s) to the clipboard.

**Paste.** Pastes item(s) from the clipboard.

**Properties.** Displays properties of a selected item.
Expand All. Expands Binder Views to show all workpapers.

Collapse All. Collapses Binder Views to hide all workpapers.

Refresh. Refreshes and re Sorts Binder tabs and workpapers.

Publish Workpaper. Publishes a workpaper to convert formulas to values.

Lock Workpaper. Locks a workpaper as read-only.

Unlock Workpaper. Unlocks a workpaper.

Freeze Links. Freezes Engagement links in the selected workpaper so that links are not refreshed.

Unfreeze Links. Unfreezes Engagement links for the selected workpaper.

Create Workpaper Note. Creates a note for the selected workpaper.

Sign Off Workpaper. Signs off the selected workpaper.

Tax Software Interface. Exports data to tax packages.

Binder View. Displays binder contents and workpaper status.

Notes Summary View. Displays workpaper and workpaper tab notes by type.

Sign Off Summary View. Displays workpapers sorted by level of review.

Current Editor View/Live Editor View. Displays workpapers sorted by current editor or live editor.
Engagement Toolbars in Excel and Word

Engagement in Office 2007

Engagement takes advantage of the new Ribbon interface in Excel and Word 2007. The *Engagement* tab displays all of the functions you need to complete workpaper tasks. The Workflow group of the *Engagement* tab includes the six most recently used tickmarks.

Engagement Toolbar – Excel for Office 2003

The Engagement toolbar that displays in Microsoft Excel for Office 2003 includes the following buttons:

- **Name Functions**. Inserts links to Client, Engagement, and Firm information.
- **Date Functions**. Inserts links to Current and Prior date information.
- **Refresh**. Refreshes all links in the workpaper, including Name, Date, and Trial Balance Links.
- **Copy TB Link**. Links data from your trial balance to your workpapers or financials. This information updates with trial balance changes.
- **Paste TB Link**. Links data from your trial balance to your workpapers or financials. This information updates with trial balance changes.
- **Insert TB Link**. Creates a link from the trial balance without opening the trial balance.
- **Drill Down TB Link**. Drills down to the accounts included in the linked formula.
- **Create TB Report**. Creates reports based on your trial balance data. See APPENDIX A for sample report settings.
JE Summary. Displays current journal entries by type. You can add, modify, or delete journal entries from this window.

Account Groupings. Opens the Account Groupings window.

TB Column Setup. Opens the TB Column Setup window where you can modify the columns displayed in the trial balance.

Paste TB Import. Imports data directly from Excel into the trial balance.

TB Edit Mode. When toggled on, allows you to make changes to the trial balance directly.

Write Up Journal Entry. Organizes the transaction data in journals.

Consolidate. Consolidates data from single company trial balances into a consolidated trial balance.

Tickmark Toolbar. Displays the tickmark toolbar.

Insert Workpaper Reference. Inserts a reference link to another workpaper in the binder.

Open Workpaper Reference. Opens the referenced workpaper.

Freeze Links. Freezes Engagement links for the workpaper so that links are not refreshed.

Unfreeze Links. Unfreezes Engagement links for the workpaper.

Create Workpaper Note. Creates a note for the workpaper.

QuikLink. Performs a Quiklink with ProSystem fx Tax.
**New Comments.** Adds comments in a worksheet.

**Show/Hide All Comments.** Toggles between showing and hiding all comments in a worksheet.

**Edit Comment.** Allows you to edit the selected comment.

**Delete Comments.** Removes comments from a worksheet.

**Check Source TB for Changes.** Checks a source trial balance for changes, if you have imported data from a source Engagement trial balance to a target Engagement trial balance.

---

**Engagement Toolbar – Word for Office 2003**

The Engagement toolbar that displays in Microsoft Word for Office 2003 includes the following buttons:

- **Name Functions.** Inserts Client, Engagement, and Firm information links.

- **Date Functions.** Inserts Current and Prior date links.

- **Refresh.** Refreshes all links in the workpaper, including Name, Date, and Trial Balance links.

- **Paste TB Link.** Links data from your trial balance to your workpapers or financials. This information updates with trial balance changes.

- **Insert TB Link.** Creates links from the trial balance, without having to open the trial balance.

- **Drill Down TB Link.** Drills down to the accounts included in the linked formula.
JE Summary. Enables you to add, modify, or delete journal entries.

Account Groupings. Opens the Account Groupings window, where you group your accounts.

TB Column Setup. Opens the TB Column Setup window where you can modify the columns displayed in your trial balance. You can set up Budget, Tax, and Variance columns and more.

Write Up Journal Entry. Organizes the transaction data in journals.

Consolidate. Consolidates data from single company trial balances into a consolidated trial balance.

Tickmark Toolbar. Displays the tickmark toolbar.

Insert Workpaper Reference. Inserts a link to another workpaper in the binder.

Open Workpaper Reference. Opens the referenced workpaper.

Freeze Links. Freezes Engagement links for the workpaper so that links are not refreshed.

Unfreeze Links. Unfreezes Engagement links for the workpaper.

Create Workpaper Note. Creates a note for the workpaper.

Insert CCH Footnote. Inserts a CCH footnote.

Toggle Field Codes/View Field Codes. Toggles all links in Word on/off. When on, you can view and edit Engagement formula links directly.
Adding Items – File Room

New Client Folder

1. Click the **New Client** toolbar button.
2. Enter the client’s information on the **Profile** tab.
3. Click the **Groups** tab to assign the client to a client group.
4. Click the **Contacts** tab to enter contact information.
5. Click **OK** when finished.

New Binder

1. Click the **New Binder Wizard** toolbar button.
2. Click **Next** on the Welcome dialog.
3. Select the client folder and click **Next**.
4. Select a central file room and click **Next**.
5. Select the source for the binder:
   - **Create binder from template**
     a. Select the tab containing the template.
     b. Select a template, and then click **Next**.
   - **Create blank binder** (no tabs or workpapers). Click **Next**.
   - **Create binder from existing binder in your local file room**
     a. Select client folder that contains the binder.
     b. Select the binder to use, and then click **Next**.
6. Enter the general properties of the binder, and then click **Next**.
7. Enter period information for the binder, and then click **Next**.
8. If you selected a template or existing binder with Knowledge Coach workpapers, the Knowledge Coach options page displays. Select the needed options, and then click Next.

9. Assign additional teams or staff to the binder by clicking the Assign buttons.

10. Click Finish.

11. Review the New Binder Summary Report and click Create to create the binder.

---

**Adding Items – Binder Window**

**New Tab**

1. In the Binder Index, right-click where you want the new tab.
2. Select New Tab from the list.
3. Enter the Name (required) and Index #.
4. Click OK.

**New Workpaper**

1. Right-click the tab where you want the new workpaper.
2. Select the item to insert:
   - **New Workpaper from Template**
     a. Select the tab containing the template.
     b. Select the template to use and click OK.
     c. Enter the Name (required) and Index #.
     d. Click OK.
   - **New Workpaper from File**
     a. Choose the location in the Look in field.
     b. Select the file to insert and click OK.
     c. Enter the Name (required) and Index #.
     d. Click OK.
Adding Items – Binder Window

- **New Trial Balance**
  a. Select the tab containing the template.
  b. Select the template to use and click **OK**.
  c. Enter the **Name** (required) and **Index #**.
  d. Click **OK**.

- **New Manual Workpaper**
  a. Enter the **Name** (required) and **Index #**.
  b. Click **OK**.

- **New Placeholder**
  a. Enter a **Name** (required) and **Index #**.
  b. Click **OK**.

- **New Knowledge Tools Workpaper**
  a. Select a title.
  b. Select the workpapers from the title.
  c. Click **OK**.
  d. If needed, you can do the following for each workpaper to be inserted:
     - Enter an index
     - Change the workpaper name
     - Select the roll forward options

- **New Knowledge Coach Workpaper**
  a. Select an industry.
  b. Select the workpapers from the industry.
  c. Click **OK**.
  d. If needed, you can do the following for each workpaper to be inserted:
     - Enter an index
     - Change the workpaper name
     - Select the roll forward options
New CCH Workpaper or New M & P (McGladrey & Pullen) Workpaper

a. Select the title to use from the *Type* drop-down list.
b. Select the tab containing the template.
c. Select the template to use and click **OK**.
d. Enter the **Name** (required) and **Index #**.
e. Click **OK**.

New Workpaper from Scanner

a. Select your scanner from the *Scanner* menu, and then click **Scan**.
b. Adjust any settings as needed, and then scan according to your scanner's user guide.
c. Review a thumbnail image of each scanned page, and then click **Scan More** or **Finish**.
d. Enter the **Name** (required) and **Index #**.
e. Click **OK**.

Understanding the Trial Balance

While trial balances appear to be normal Excel files, they actually represent the databases that store all of your data. The three types of trial balances are as follows:

- Standard single company trial balance
- Consolidated trial balance
- Write up trial balance

Trial balances created with a version of Engagement prior to 6.0 must be converted to Microsoft SQL Server database files. To do this, select **Start/Programs/ProSystem fx Engagement/Utilities**, and then click **ProSystem fx Engagement Trial Balance Conversion Wizard**. The wizard instructions will guide you through the conversion process.
Understanding the Trial Balance

If you prefer, trial balances can be converted when binders are synchronized in ProSystem fx Engagement.

**Note:** See page 39, *Advanced Trial Balance Functions*, for details on creating consolidated and write up trial balances.

**Opening a Trial Balance**

Click the **Open Trial Balance** button from the *Binder* window. This launches Excel, allowing you to view the trial balance.

**Note:** If you have more than one trial balance in your binder, a window displays listing all trial balances. Select the appropriate one and click **OK**.

**Parts of a Trial Balance**

There are three areas in the trial balance that allow you to change the way information is displayed.

- **Changing the View.** You can switch to any view you created in your trial balance from the *View* drop-down menu. The columns to the right of the *Account* and *Description* columns change based on your settings for that view in the *TB Column Setup*. Examples of column descriptions are *Unadjusted Balance*, *Final Balance*, and *Prior-Period Final Balance*. See page 23, *Setting Up Trial Balance Views*.

- **Changing the Grouping List.** You can switch to any grouping list you created in your trial balance from the *Group* drop-down menu. Different groups and sub-groups display in the *Account Group Summary* and *Account Sub-Group Summary* tabs. See the following section, *Changing Worksheet Tabs*, for details on worksheet tabs.
The Account column displays the group or sub-group index numbers you created. The Description column displays the group or sub-group descriptions. The Grouping lists are created, modified and deleted from the Account Grouping window. See page 29, Account Groupings, for further details.

### Changing Worksheet Tabs
You can navigate among worksheets using the following tabs:

- **Account Detail**: This tab displays the trial balance by account number. Subtotaling cannot be performed on this worksheet. You can manually add subtotals to TB Reports generated from the trial balance.

- **Account Group Summary** and **Account Sub-Group Summary**: These tabs display the totals for each group or sub-group in the Account Grouping window. Change the Grouping List from the Group toolbar drop-down to change which groups or sub-groups you want displayed.

---

### Using Trial Balance Functions

#### Setting up Trial Balance Views

1. Select **TB Column Setup** from the Trial Balance menu in the Binder window.

2. In the **Trial Balance** field, select the trial balance with the columns you want to modify.

3. In the **View** field, select the view with the column setup you want to modify.

   **Note**: Click **Options** to create a new view.

4. In the **Available Columns** field, select the period that contains the columns you want to select from. Available columns are on the left side; click the right-pointing arrow to add the column to your view.
5. To add a variance column, click **Add Variance** and select the appropriate information in the *Column Properties* section.

6. Click **Close** to save your changes.

**Converting & Importing Trial Balance Data**

You can convert trial balance data from other supported trial balance software packages into an Engagement trial balance. You can also import trial balance data from another Engagement trial balance. For other cases, import the information using the Paste TB Import function.

**Converting Trial Balance Data from ProSystem fx Write-Up or ProSystem fx Trial Balance**

1. Select **Import Conversion Wizard** from the Trial Balance menu in the *Binder* window.

2. Choose the source of your conversion file.

3. Click **Next**.

4. Select the ProSystem fx Engagement trial balance you want to transfer the data into from the *Select Trial Balance* list.

5. Select the ProSystem fx Trial Balance or Write-Up file from the *Select export file* list.

6. Select the appropriate current period information, tax information, chart of accounts settings, and lead classifications options, as necessary.

7. Click **Finish**.

**Converting Trial Balance Data from ATB for Windows, GoSystem Audit, or an ASCII Text File**

1. Select **Import Conversion Wizard** from the Trial Balance menu in the *Binder* window.

2. Choose the source of your conversion file.

3. Click **Next**.
4. Select the ProSystem fx Engagement trial balance you want to transfer the data into from the Select Trial Balance list.

5. Select the source file for import.

6. Select the number of prior periods.

7. If importing from and ASCII Text file, select whether the source file is comma delimited or tab delimited.

8. If importing from GoSystem Audit, select the balance type to convert.

9. Click Next.

10. If importing from GoSystem Audit, do the following:
    a. Select whether to convert all groupings, convert all and map to one Engagement grouping, or map to one Engagement grouping.
    b. If you are mapping groupings, select the GoSystem Audit grouping to map from (on the left), and select the ProSystem fx Engagement grouping to map to (on the right).
    c. Select the appropriate options for converting tax codes, if necessary.
    d. Click Next.

11. On the Chart of Accounts screen, click the gray bar at the top of each column to select the appropriate header information. You can assign only one trial balance column to each column of imported data.

12. Select either to append or overwrite the data in the existing trial balance.

13. Select the appropriate rounding options as necessary.

14. Click Next.

15. Click Yes.

16. Click OK.

17. Click Finish.
Using Trial Balance Functions

Importing Data from CaseWare

1. Select **Import Conversion Wizard** from the Trial Balance menu in the *Binder* window.

2. Choose the source of your conversion file and click **Next**.

3. From the *Select Engagement trial balance* list, select the ProSystem fx Engagement trial balance you want to transfer the data into.

4. Select the client file for import.

   **Note:** Only client files with the extension `.ac` are accepted. Compressed files with the extension `.ac_` are **not** accepted.

5. Select the CaseWare entity.

6. In the *Chart of accounts information* section, select the period sequence, the current CaseWare period to import into Engagement, and the CaseWare current period balance type.

7. Select whether to append to or overwrite the existing data in the Engagement trial balance data.

8. Select the appropriate rounding options as necessary.

9. Select one of the following:
   - convert all groupings
   - convert all and map to one Engagement grouping
   - map to one Engagement grouping

10. If you are mapping groupings, select the CaseWare grouping to map from (on the left), and select the ProSystem fx Engagement grouping to map to (on the right).

11. Click **Finish**.
Importing TB Data From an Excel File

1. Open the trial balance.
2. Open the Excel file containing your trial balance data.
3. Do the following to prepare the content for import:
   - Organize the data so that there are no blank rows in the data range.
   - Remove any of the following characters from the account number and balance columns: ':", | () * ?.
   - Verify that the total of each balance column nets to zero.
4. Select the range of data, excluding any column headers or balance checks, and select Edit/Copy in Excel.
5. Switch to the trial balance by selecting it from the window menu in Excel.
6. Click the Paste TB Import button.
7. Define the columns by clicking the gray column header bar and selecting the appropriate column description from the menu that appears. Do this for all columns to import. Do not define the header for those you do not want to import.
8. Choose Append or Overwrite. Select Append to add your current data to the existing trial balance. Select Overwrite to destroy all existing account data and journal entries. The accounts must be regrouped. Overwrite also unassigns all previous group and sub-groupings.
9. Correct duplicated account numbers, invalid accounts, and blank fields highlighted during import.
10. To round balances, select the place to round the account balances to in the Round Balance to Nearest field and complete the Select Rounding Account field.
11. Click Next, then Yes, and then OK to continue.
12. Review the statistical information and click OK.
Importing TB Data From An Engagement Trial Balance

1. Open the trial balance to import data to.
2. Select Engagement/Import from Engagement TB.
3. Select the client name, binder, and trial balance from which you want to import information.
4. If necessary, check the Import current period balance box and select the current period balance type to import.
5. If necessary, check the Import prior period balance box and select the prior period balance type to import.
6. If you selected to import current or prior period information, select whether to append or overwrite the data.

Note: If you have previously imported data from the source file, the Import status based on last binder synchronization section displays the date and time of the last import, the date and time the source binder was last synchronized, and the status of the source binder.

7. Click Check for Source TB Changes to determine whether any balance changes exist between the source trial balance and the target trial balance.
8. Click OK.

Checking for Changes to the Source Trial Balance

To check for balance differences between a source Engagement trial balance and a target Engagement trial balance after importing data, do the following:

1. From the Binder window, select Trial Balance/Check for Source TB Changes.
2. If more than one trial balance is in the binder, select the target trial balance and click OK. If there are differences between the source file and the target file, the Import from Engagement TB Log File displays. Only accounts with balance differences display in the log file.
Chart of Accounts

Use the Chart of Accounts window to add, modify, and delete accounts.

1. Select **Chart of Accounts** from the **Trial Balance** menu in the **Binder** window.

2. Select the trial balance from the **Trial Balance** field.

3. Select the balance type from the lower field of the **Period and Balance type** group.

4. Do any of the following, as needed:
   - To add an account to a trial balance, click **Add Account** and enter information for each new account. Added accounts need to be grouped.
   - To modify account information, click in the cell you want to modify and enter the change.
   - To delete an account, click the account row and then click **Delete Account**. Deleted accounts remove the prior year information.

TB Edit Mode

Use TB Edit Mode to manually enter current period balances or to modify prior period amounts. Click the **TB Edit Mode** button when the trial balance is open to turn this mode on or off.

Account Groupings

1. Select **Account Groupings** from the Trial Balance menu in the **Binder** window.

2. Select the trial balance for which you want to group accounts from the **Trial Balance** menu.

3. Select the Account Grouping List for which you would like to group the accounts from the **Grouping List**.
4. Add groups or sub-groups by right-clicking the *Groups and Sub-groups* window.

**Note:** You also can add groups or sub-groups by clicking **Advanced** below the window.

5. Click **Close** when finished.

6. You can assign Account and Ratio Classifications when a group or sub-group is created, or you can click **Advanced** to edit the group or sub-group. These classifications are used to break down balances and calculate net income or loss for the period. These classifications may also be used for TB Links.

**Note:** If Account and Ratio Classifications are assigned, the Quickview option displays the balances broken down by assets, liabilities and equity, revenue, expenses, and net income. Select **Quickview** from the *Trial Balance* menu in the *Binder* window.

7. Select the account(s) you want to group from the *Account* and *Description* columns displayed on the left. Drag the account(s) to the group or sub-group folders on the right. Continue this process until all the accounts are grouped.

**Note:** Use the *Account and Description Filters* fields to show only the accounts you want to group. Use a question mark (?) as a place holder and an asterisk (*) as a wildcard. For example, to display all accounts with 5 as the second character, such as 1500-01-1000, type ?5*.

8. Click the **Options** button to administer your Grouping Lists. You can create new groups, delete or rename existing groups, and export groups from this window. You can also access standard Tax Line Grouping lists by clicking **Import**.

9. Click **Close** when you are finished administering your Grouping Lists.

10. Click **Close** when you are finished grouping accounts.
Journal Entries

1. Select Journal Entry Summary from the Trial Balance menu in the Binder window.

2. From the Trial Balance drop-down list, select the trial balance to which to post the journal entry.

3. In the Type pane, select the type of entry.

4. Click New to open the Journal Entry Detail window.

5. Enter the journal entry number, description and W/P reference in the appropriate fields.

6. Select the accounts for the entry by double-clicking an account on the left side.

   Note: You can create new accounts by clicking Add Account. Click Remove JE Line to take the selected account out of the journal entry field.

7. Enter the amounts in the cells.

8. Select one of the following:
   - Save and New to record another entry
   - Save and Close to return to the Journal Entry Summary screen.

   Note: On the Journal Entry Summary screen, you can reclassify any entry to another journal entry type by dragging the journal entry to the appropriate icon in the left pane. Click Close when done.

Recording Transactions in Write Up Trial Balances

1. Open the write up trial balance.

2. Click the Write Up Journal Entry button.

3. From the Trial Balance menu, select the trial balance you want to post transactions to.

4. Select the journal to use to enter the transactions.
5. Click **New** to start entering your transaction.

6. Enter the *Date*, *Ref*, *Transaction*, *Account #*, *Account Description*, and *Debit* and *Credit* amounts, as needed.

   **Note:** For choices involving dates, reference numbers, or account numbers, click **Options**.

7. Click **Close** to finish entering transactions.

   **Note:** See page 39, *Advanced Trial Balance Functions*, for instructions on creating write up trial balances.

**Reports**

There are four types of reports created by Engagement: JE, TB, Consolidated, and Write Up.

**JE Reports**

1. Open the trial balance.

2. From the Engagement menu, select **Create Reports/Journal Entry Reports**.

3. Select the trial balance from the *Trial Balance* list.

4. Select the box for each type of JE Report to create.

5. Click **OK**. The reports are placed in the *Unfiled Workpapers* tab in your Engagement binder. You can rename them and drag them to the appropriate tabs as needed.

**TB Reports**

1. Open the trial balance.

2. Click the **Create TB Report** toolbar button.

3. Select the trial balance from the *Trial Balance* list.

4. Select the *Grouping List* to generate the report from.
5. Choose one of the following in the *Account Groups* section:

- **Include selected** includes only the groups you select.
- **Include current and future** includes all groups currently in the selected grouping list and automatically adds any groups that are created in the future.

**Note:** If you select *Include current and future*, you can select **Classified Report** to create a report organized by the account and ratio classifications.

6. In the *Report Type* field, select the level of detail to display:

- **Summary – Groups**. Summarizes your report at the group level.
- **Summary – Sub-Groups**. Summarizes your report at the sub-group level.
- **Detail**. Displays all charts of accounts organized into the groups and sub-groups. If you select **Combine Groups**, the information generates in one report. Otherwise, a separate report is generated for each selected group.

7. Enter a name in the *Report Name Guide* field.

8. Select from the following options as needed:

- **Hide empty groups and sub-groups** and **Hide accounts with zero balances**. Hides indicated items.
- **Print as Black and White**. Sets the default print settings to black and white.
- **Show W/P Ref Columns**. Displays workpaper references created in the trial balance.
- **Include sum of account groups**. Subtotals the groups within a classified report.
- **Include net income**. Displays net income amount on an unclassified report.

**Note:** Net income is always included on classified reports.
9. Click **Format** to select which trial balance columns you want to include in the report.
   - Drag columns from left to right to add them.
   - Drag columns from right to left to remove them.
   - Add Variance columns as needed.

10. Click **OK** to save your column setup.

11. Click **OK** to create the reports. The reports are stored in the *Unfiled Workpapers* tab in your Engagement binder.

**Notes:**
- See *Appendix A* for sample TB Report Settings.
- To modify an existing report setup, open the report and then select **Properties** from the Engagement menu. Make your changes to the setup, and then click **OK** to save them.

**Consolidated Reports**

1. Open the consolidated trial balance.

2. From the Engagement menu, select **Create Reports/Consolidated Reports**.

3. Select report options, as desired. These options are the same as those for a regular trial balance.

4. Click **OK** to create the report. The report is stored in the *Unfiled Workpapers* tab of your Engagement binder.

**Note:** See page 39, *Advanced Trial Balance Functions*, for instructions on creating consolidated trial balances.
Write Up Reports

Engagement provides the following three write up reports:

- **Write Up Detail.** Shows detailed entries from a selected journal. The report columns are the same as the journal columns.

- **G/L Current and G/L YTD.** Show the accounts in the trial balance, their beginning balance, transaction amounts, and ending balance for either the current or YTD period, whichever you select.

Creating the Write Up Detail Report

1. Select **Create Reports/Write Up Reports/Write Up Detail Report** from the Engagement menu.
2. Select the trial balance from the list.
3. Select the specific write up journals you want to create.
4. Click **OK** to create. The report is stored in the Unfiled Workpapers tab in your Engagement binder.

Creating G/L Current and G/L YTD Reports

1. Select **Create Reports/Write Up Report** from the Engagement menu.
2. Select **G/L Current Report** or **G/L YTD Report**. The Select Journal Entry dialog displays.

   **Important:** If you select **G/L YTD Report** for a non-annual binder, the Select Journal Entry dialog does not display. The report is created with only write up journal entries.

3. Select the types of journal entries to include in the report. By default, Client Journal Entries and Adjusting Journal Entries are already selected.
4. Click **OK**. The report is stored in the Unfiled Workpapers tab of your Engagement binder.

**Note:** See page 39, *Advanced Trial Balance Functions*, for instructions on creating write up trial balances.
Linking to the Trial Balance

Name and Date Links

Name and date links enable you to insert information about the client, firm, binder, workpaper, or dates related to the engagement.

- Name information comes from the Properties window of the client, firm, binder, or workpaper.
- Date links are calculated from the Periods and Dates tabs in the Binder Properties window.

To insert name or date functions, do the following:

1. Open the workpaper.
2. Do one of the following:
   - In Excel, click the cell where you want to insert the link.
   - In Word, insert the cursor where you want to insert the link or select the text that you want to replace with a Name or Date link.
3. Click the Name Functions or Date Functions button on the Engagement toolbar. A menu of name or date functions displays.
4. Select the name or date option you want to insert.

Linking Trial Balance Data

This section explains the two methods for linking trial balance data.

Copying and Pasting TB Links

1. Open both the trial balance and the Excel or Word workpaper you want to link.
2. Activate the trial balance in Excel by selecting it from the Window menu, and select the trial balance cell(s) you want to link to the workpaper. Click the Copy TB Link toolbar button.
3. Switch to the workpaper you want to paste the link(s) to.
4. Select the area you want to paste the links into.
5. Do one of the following when pasting a link into one of the areas listed below:

- **Excel spreadsheet.** Select the cell or the first cell in the range if you are pasting multiple cells and click the **Paste TB Link** toolbar button.

- **Word Table.** Select the entire table cell and click the **Paste TB Link** toolbar button.

- **Word Paragraph.** Insert the cursor where you want the data to appear or select the text to replace, and then click the **Paste TB Link** toolbar button.

6. Select the options to use from the window that appears.

7. Click **OK**.

**Inserting TB Link**

1. Open the Excel or Word workpaper.

2. Place the cursor where you want to insert the TB Link.

3. Click the **Insert TB Link** button on the Engagement toolbar.

4. Build a formula using the six parameters: **Trial Balance**, **Account Grouping**, **Type**, **Period**, **Balance Type**, and **Account/Index #**.

5. To round the amounts used in the formula, select the **Round** box and enter the number of decimal places to round to.

6. Select **Sign options** in Excel or Word, and select **Negative style**, **Numeric style**, and **Zero style** in Word.

7. Click the **Insert** button. The formula displays in the TB Link Formula box.

8. You can add to the existing formula by selecting the appropriate parameters again and clicking the **Insert** button.

9. Click **Paste** to insert the TB Link into the workpaper.
Analyzing a TB Link Formula

To view a TB Link in Excel, click on a cell containing the TB Link. The formula displays in the formula bar.

In Word, click the Toggle Field Codes or View Field Codes button. A Word formula has several formatting parameters, but within this formula you will see the same formula noted in Excel:

```
TBLink("TB","FINAL[7]","4110","15","1","0")
```

- **TB** represents the name of the trial balance database you linked from.
- **FINAL[7]** represents the trial balance column you linked from. FINAL shows the Abbreviation you defined in the TB Column Setup window. [7] is the column ID assigned by Engagement.
- **4110** represents the index assigned to an account class, ratio class, account group, account sub-group, or the account number if linked to the Account Detail.
- **15** represents the Grouping List ID number.
- **1** represents the trial balance tab you linked from or the account type you linked: "1" = Group Summary tab, "2" = Sub-Group Summary tab, and "3" = Account Detail tab, "-1" = Account Class, "-2" = Account Type, "0" = Ratio Class.
- **0** is reserved for future use.

Drill Down to Trial Balance Accounts

To drill down to the accounts that make up the amounts calculated in a linked formula in an Excel or Word workpaper, do the following:

1. Open the Excel or Word workpaper.
2. Do one of the following:
   - In Excel, click the cell with the linked formula.
   - In Word, select the linked field.
3. Click the **Drill Down TB Link** button.
4. Click **Close**.
Advanced Trial Balance Functions

Consolidating Trial Balances

Consolidations occur at the trial balance level within one Engagement binder. You will set up a trial balance for each subsidiary and then consolidate them into a consolidated trial balance.

To create a consolidated trial balance, do the following:

1. Select the tab you want to insert the trial balance into from the Binder window.
2. Click the New Trial Balance button from the Binder window.
3. Click the Consolidated tab.
4. Select the Consolidated Trial Balance – 2 Year template.
5. Click OK.
6. Complete the Index # and Name fields in the Workpaper Properties dialog.
7. Click OK to create the trial balance.

Consolidating Subsidiary Trial Balances

To consolidate subsidiary trial balances into a blank consolidated trial balance, do the following:

1. Open the consolidated trial balance.
2. Click the Consolidate button on the Engagement toolbar.
3. From the Consolidated Trial Balance list, select the trial balance you want to hold the consolidated information.
4. Click the Add button to add a subsidiary trial balance.
5. Select the trial balance from the Trial Balance list.
6. Type the abbreviation you want for the column heading.
7. Select a grouping from the Grouping List field.
Using Trial Balance Functions

8. Select **Overriding List** if you want to take precedence over the trial balance(s) when there are conflicts with the description of the grouping basis or grouping codes.

9. Select the balance type to consolidate in the *Balance* field.

10. To add more subsidiaries, click **Add** and repeat steps 5 through 9.

11. Select the consolidation basis based on groups, sub-groups or account detail.

12. Select how you would like numbers to be rounded from the *Rounding* list.

13. Select the **Number of Prior Periods** you want to gather during consolidation.

14. Click **OK** to consolidate.

**Write Up Trial Balances**

Write up trial balances allow you to enter transactions into write up journals or book client journal entries. To create a write up trial balance, follow these steps:

1. Select the tab to insert the trial balance into from the *Binder* window.

2. Click the **New Trial Balance** toolbar button.

3. Click the **Write Up** tab.

4. Select the **Write Up** template.

5. Click **OK** to display the *Workpaper Properties* dialog.

6. Complete the *Index #* and *Name* fields.

7. Click **OK** to create the write up trial balance.
If you prefer to book standard two-sided entries as Client Journal Entries, instead of the transaction journals, see page 31, *Journal Entries*. You can use either methods to enter Client Journal Entries. The information will display in the CJE column of the write up trial balance, regardless of which method you use.

**Note:** See page 32, *Reports*, for information on creating write up reports.

**Exporting to Tax Software**

Before you can export trial balance data to a supported tax software package, you must have grouped your accounts to one of the Account Grouping Lists. See page 29, *Account Groupings*, for instructions on grouping accounts.

Follow these steps to export data to tax software:

1. Click the **Tax Software Interface** button in the *Binder* window.
2. Select the software that you will be exporting to from the *Tax Software* list.
3. Verify the appropriate tax Account Grouping List is selected in the *Grouping* list.
4. In *Configuration information*, enter the *Tax year*, *Grouping*, *Balance*, and *Employer ID #*.
5. Select the balance you want to export from the *Balance* list. The *Export Prior Year* box is always checked to export that information.

   **Note:** You must control the import of prior year information in the tax program.

6. In *Export information*, Engagement provides default paths and names for the information you need to export to the respective tax vendor; however, you may need to browse to the appropriate directory by clicking *Browse*.
7. Click **OK**. If you have any ungrouped accounts, a report listing them displays. You must group these accounts before you can successfully complete the export.
Tip: When customizing a tax Account Grouping List, you can add sub-groups to groups that support detail schedules in your tax software. The sub-group descriptions display as the descriptions on the detail schedule.

You cannot add groups to a tax Account Grouping List, as they will not export to your tax software. You can choose groups or sub-groups to export by selecting Send to Tax in the group or sub-group properties.

Sharing Workpapers

Only the Current Editor (in a non-shared file room) or the Live Editor (in a shared file room) can make changes to a workpaper. Other team members can view a read-only copy of the workpaper.

When you check out unassigned workpapers from the central file room, you become the Current Editor. You remain the Current Editor until you check in the workpaper to the central file room or assign it to another team member.

There are five methods you can use to share workpapers:

- Shared Local File Room
- Synchronize Binder
- Synchronize Selected Workpapers
- Express Synchronization
- Binder Packages

When team is attached to an office network, the central file room is used to share and distribute binders. When you log in to Engagement from the Office, the program displays the central file rooms that have been set up.

When the team is attached to a peer-to-peer network in the field, its members can share and distribute binders directly with each other. When you log in from the Field, each staff member assigned to binders in your local file room displays.

When you are not on a network or you need to email a binder to a staff member, you do not synchronize to the central file room or to another staff member’s local file room. See page 46, Binder Packages, for further details.
Shared File Rooms

Shared local file rooms allow multiple Engagement users to work with workpapers in the same binder without synchronizing with a central file room, checking out workpapers, or assigning workpapers.

To work with shared file rooms, the option must be enabled for your firm in Administrator, and you must belong to a staff group that allows sharing of local file rooms.

A Host selects to share his or her local file room, and then other users can log in to the shared file room. Users can open any workpaper in the Host’s file room, as long as the Host is the Current Editor.

Sharing a Local File Room

1. Log in to Engagement as either Office or Field.
2. Right-click within the file room frame.
3. Select Share File Room.

Stopping File Room Sharing:

1. Log in to Engagement as either Office or Field.
2. Right-click within the file room frame.

Editing Workpapers in a Shared File Room

Working with workpapers in a shared file room is similar to working in your own local file room. When you open a binder in the Host’s local file room, the Binder View displays.

The Live Editor column displays the current status of each workpaper.
Sharing Workpapers

The following statuses are available:

- **(User Name)**. The user whose name displays is currently the Live Editor of the workpaper. You can view a read-only copy of the workpaper until the Live Editor closes it.

- **<Available>**. The local file room’s Host is the Current Editor of the workpaper, and no other users are currently working on the workpaper. The workpapers are available for you to open and edit.

- **<Unavailable>**. The Host is not Current Editor of the workpaper.

Click on any workpaper with <Available> displayed in the Live Editor column to edit the workpaper.

Close the workpaper when you finish editing it. No synchronization or check-in required.

### Synchronize Binder

Synchronizing a binder update changes made to workpapers with other staff members.

1. Select the binder in the *File Room* window.

2. Click the **Synchronize Binder** toolbar button.

3. Click **Next** on the *Synchronize Binder Wizard* Welcome screen.

4. Select the **Staff** or **Buddy List** member to synchronize with. If you are synchronizing the binder in the field with a staff member whose computer is not listed in the *Existing Locations* list, browse to the appropriate path in the *Alternate Locations* field, then click **Next**. The *Synchronize Entire Binder or Selected Workpapers* dialog displays.

5. Select to either synchronize the entire binder including all workpapers, or to synchronize only workpapers you select.

6. Click **Next**. If you have current editor rights for a workpaper, the *Assign Workpapers* dialog appears. Select workpapers to assign to a staff member’s local file room. You will no longer have current editor rights to them in your local file room.
7. Click **Next**. If you are synchronizing selected workpapers, and new workpapers exist in your local file room or the remote file room, the *Synchronize Workpaper from your LOCAL File Room* or *Synchronize Workpaper from REMOTE File Room* dialog displays, as appropriate. Select the workpapers to synchronize.

8. Click **Next**.

9. Click **Synchronize**.

**Synchronize Individual Workpapers**

When logged in from the Field, you can synchronize selected workpapers with other staff members or a staff member in your Buddy List.

1. Open the binder containing the workpapers to synchronize.

2. Select workpapers to synchronize. Press and hold `SHIFT` to select contiguous workpapers, or press and hold `CTRL` to select non-contiguous workpapers.

3. Select **Workpaper/Synchronize Workpaper**.

4. Select the target to synchronize with.

5. Click **OK**. A list of workpapers that are available for synchronization displays.

6. Click **Synchronize**.

**Express Synchronization**

Express Synchronization automatically synchronizes changes from the local file room to the central file room, and vice versa, without opening the *Synchronize Binder Wizard*. You do not have the option to check workpapers in or out.

To perform an express synchronization, do the following:

1. Select the binder in the *File Room* window.

2. Click the **Express Synchronization** toolbar button.
Binder Packages

Creating a Binder Package

1. From the File Room, select the binder you want to package.
2. Click the **Create Binder Package** button.
3. Select the workpapers to include in the package.
4. Select how you want to distribute the binder package.
   - To save the binder package as a file, select **Save package to a file**. Verify the path and file name of the binder file.
   - To send the binder package as an email attachment, select **Send package via email**.
5. Click **OK**.

Receiving a Binder Package

After a binder package is created, other Engagement staff members can receive it. To receive a binder package, do the following:

1. Click the **Receive Binder Package** button from the **File Room** window.

   **Note:** To receive a binder package via Microsoft Outlook, select **Engagement/Receive Binder Package** in Outlook.

2. Browse to the package file (with an AZP extension) to receive.
3. When you receive a binder, one of two events will occur:
   - If you do not have the binder, Engagement locates the client folder and inserts the binder into it. If the client folder doesn't exist, Engagement creates it.
   - If you have the binder already, Engagement compares the existing binder to the one sent to determine if there are any conflicts. If different Current Editors exist for the same workpaper, you are warned of this conflict when you open the binder.
Note: During synchronization, a Synchronization Conflicts dialog displays when there are conflicts between a binder in the local file room and a binder in the central file room. You must specify whether the Local copy or the Remote copy (remote local file room, central file room, or binder package) takes precedence. You can view details of the conflict by clicking View Details. Click OK to continue.

Reviewing Workpapers

Workpaper Notes

There are three types of workpaper review notes you can use to electronically communicate during an engagement:

- Open Item
- Team Note
- Note for Next Period

Creating a Workpaper or Workpaper Tab Note

1. Select the workpaper or workpaper tab from the Binder window.
2. Click the Create Workpaper Note button.
3. Select the type of note from the drop-down list.
4. To address the note to an individual team member, clear the All Binder Staff box and select a specific staff member.
5. Enter the note’s subject in the Subject field.
6. Enter the note’s text in the Note field.
7. Click OK to save your note. The note information displays in the Notes pane.

Responding to, Clearing, or Deleting a Note

You can use the Notes pane in the Binder window or the Notes Summary View to keep track of which notes require response, clearing, or deletion.
To clear, delete, or respond to a note, do the following:

1. Click the *Notes Summary View* tab in the *Binder* window.
2. Right-click a note and select one of the following:
   - **Respond to Note** allows you to reply. Enter a response, and then click **OK** to save the text.
   - **Clear Note** crosses out content and any replies. A record of the note remains in the *Binder View* and *Notes Summary View*. The status changes to cleared.
   - **Delete Note** erases the note.

**Workpaper Sign Off**

You can sign off workpapers as the Preparer and/or as a Reviewer. A workpaper can have multiple Preparers and Reviewers.

To sign off a workpaper, do the following:

1. Select the workpaper in the *Binder* window and click the **Sign Off Workpaper** button.
2. Select your name from the **Current User** menu.
3. The **Date** defaults to today’s date. Select a different date if necessary.
4. Add or update your sign off signature by clicking the **plus sign** (+) in the *Preparer* field or in one of the *Reviewer* fields. Click the **minus sign** (-) to remove your sign off.
5. Click **OK** to save your changes.

You can manage the sign-off status of engagement workpapers by selecting the **Sign Off Summary View** tab.
Lock/Unlock Workpapers

After the workpaper has been reviewed and signed off, you may want to lock the workpaper. A workpaper that is locked is read-only. Links will continue to update provided they are not frozen.

To lock or unlock a workpaper, follow these steps:

1. Select the workpaper you want to lock or unlock from the Binder window.

2. Click the Lock Workpaper or Unlock Workpaper button. When the workpaper is locked, the Lock symbol appears. The workpaper is now a read-only file.

Freeze/Unfreeze Workpapers

There may be times when you want to freeze a workpaper. Engagement links such as name and date links and TB links in a workpaper that is frozen are not updated if changes are made to the trial balance.

To freeze or unfreeze a workpaper, follow these steps:

1. Select the workpaper in the Binder window.

2. Click Freeze Engagement Links, represented by a broken chain, or Unfreeze Engagement Links, represented by a solid chain.

Note: If you publish a workpaper with frozen links, the published workpaper will contain the values of the links when frozen.

Tickmarks

Using the Tickmark Definition List

The tickmark definition list contains the tickmark symbols (images) and descriptions. To use the tickmark definition list, follow these steps:

1. Open a report or workpaper in Excel, Word, or Adobe Acrobat.

2. Select Engagement/Tickmark/Tickmark Definition.
To add your own tickmarks to this list, click **Add**.

Type the tickmark name and description. Browse to a 16-color, 16 x 16 pixel bitmap picture and click **Open**. You are returned to the Tickmark Definition dialog, and your image appears in the left-hand column.

Click **Close**.

**Note:** To delete a tickmark, select the tickmark and click **Delete**.

**Inserting Tickmarks**

To insert a tickmark symbol, follow these steps:

1. Open an Excel, Word, or Adobe Acrobat workpaper.

2. Click the **Tickmark Toolbar** button.

3. Follow these steps if you are working with Excel or Word:
   a. Click where you want the tickmark to be placed.
   b. Click the tickmark symbol in the tickmark toolbar.

   Follow these steps if you are working with Acrobat:
   a. Click the tickmark symbol in the tickmark toolbar.
   b. Click where you want the tickmark to be placed.

**Workpaper Reference Links**

**Inserting Workpaper Reference Links**

1. Open an Excel, Word, or Adobe Acrobat workpaper.

2. Follow these steps if you are working with Excel or Word:
   a. Click in the cell (Excel) or place the cursor in the document (Word) where you want to insert the workpaper reference link.
   b. Click the **Insert WP Reference** button.
Follow these steps if you are working with Acrobat:

a. Click the Insert WP Reference button.

b. Click the location in the workpaper where you want the workpaper reference to be placed.

3. Select the workpaper to reference.

4. Click Insert.

5. Click Close.

Opening Referenced Workpapers

To open a referenced workpaper, do the following:

1. Open the Excel, Word, or Adobe Acrobat workpaper.

2. Click in the cell containing the reference (Excel) or select the workpaper reference (Word or Acrobat) to open.

3. Click the Open WP Reference button.

Publishing Workpapers

To send someone an electronic copy of a Word or Excel workpaper, you should publish the workpaper. A published workpaper is a copy of a workpaper in which the formulas (i.e., trial balance links) have been converted to values. This allows you to share the workpaper with people who do not have access to the trial balance database.

To publish a workpaper, follow these steps:

1. Select the workpaper to publish in the Binder window.

2. Click the Publish Workpaper button.

A copy of the workpaper is filed in the Published Workpapers tab in the Binder window. The original name of the workpaper now has - Published appended to the end. All of the formulas, such as dates, names, and amounts, have been converted to values. This published workpaper will not be updated because the formulas no longer exist.
Creating Templates

This section includes procedures for creating the following templates:

- Trial Balance
- Workpaper
- Account Groupings
- Print Groups
- Tickmarks
- TB Links

**Trial Balance Templates**

If there is a trial balance that has a format you use frequently, you can save it as a template.

**Note:** Trial balance templates created with a version of Engagement prior to 6.0 must be converted to a format supported by Microsoft SQL Server database. To do this, select **File/Convert Trial Balance Templates** in the ProSystem fx Engagement File Room.

Follow these step to save a trial balance as a template:

1. Open the trial balance.
2. Select **Engagement/Properties**.
3. Clear the **Hide zero balance groups and sub-groups** and **Hide zero balance accounts** boxes. The numbers and groups will display on the trial balance when it is created from this template.
4. Click **OK**.
5. Close the trial balance.
6. Right-click the trial balance in the **Binder** window and select **Save as Template**.
7. Select the template folder where you will save the template.
8. Type the file name for the template.
9. Select the **Clear chart of accounts** box if you do not want to save the account numbers and descriptions in the template.

10. Select the **Save journal entries** box to save the journal entries (accounts and amounts) in the template.

11. Click **Save**.

**Workpaper Templates**

If there is a workpaper format you use frequently, you can save it as a template. Follow these steps to save a workpaper as a template:

1. Select the workpaper in the *Binder* window.

2. Right-click the workpaper you want to make into a template and select **Save As Template**.

3. Keep the default path and name, or browse for the path and type a name for the template and click **Save**.

**Note**: Knowledge Coach workpapers cannot be saved as templates. Instead, you can copy Knowledge Coach workpapers from one binder to another.

**Account Grouping Templates**

To use an account grouping in another trial balance, you can follow these steps to save an account grouping as a template:

1. Select **Trial Balance/Account Groupings** from the *Binder* window.

2. In the *Trial Balance and Grouping List* field, click the **Options** button. The *Grouping List Options* dialog displays.

3. Select a grouping from the grouping lists shown.

4. Click **Export**.

5. Browse for the path and enter a file name.

6. Click **Save** to create the template, and then click **Close** to close the *Grouping List Options* dialog.
Print Group Templates

To print a group of workpapers and save a print group as a template, follow these steps:

1. Select **File/Print Group** in the **Binder** window. The **Print Group** dialog displays.
2. Select the workpapers in the print group from the left side.
3. Click **Save Print Group**.
4. Enter a name in the **File name** field and click **Save**.

Tickmark Templates

Do the following to share tickmarks with other team members and save them as templates:

1. Open an Excel, Word, or Adobe Acrobat workpaper.
2. Select **Engagement/Tickmark/Tickmark Definition**.
3. Click **Export**.
4. Browse for the path and click **Save**.

For more information, see page 49, *Using the Tickmark Definition List*.

Saving TB Link Formulas

To save TB Link formulas (e.g., complex ratios) as templates for other workpapers, follow these steps:

1. Build a TB Link formula using the **Insert TB Link** function. See page 36, *Linking to the Trial Balance*.
2. In the **Insert TB Link** window, click **Save**.
3. Type a name and description for your saved TB Link formula.
4. Click **Close**.
Renaming Items

Throughout the system, you can rename items by selecting the items you want to rename and clicking on the Properties toolbar button. Make your changes and click OK to save them.

Deleting Items

Warning: When a Knowledge Coach workpaper is deleted, it is removed permanently. It is not sent to the Trash folder and cannot be restored.

- **In the File Room.** Select the item(s) to delete and press DEL. These items are permanently deleted.
- **In the Binder window.** Select the item(s) to delete and press DEL. The items are now in the Trash.

Notes:

- To restore an item deleted from the Binder Window, right-click the Trash icon and select Restore All, or right-click on individual workpapers and select Restore.
- Depending on the settings in Administrator, upon closing a binder Engagement will keep the items in the trash, prompt you to delete the items in the trash, or automatically delete the items in the trash.
Getting More Information

For more information on these functions, and to better understand their underlying concepts, you can refer to the following sources:

- Tip of the Day
- User Guide (see Help menu in Engagement)
- Online Help (see Help menu in Engagement)
- Technical Support at https://prosystemfxsupport.tax.cchgroup.com

CCH INCORPORATED, a Wolters Kluwer business, offers hands-on, detailed training on the features in this guide. Consulting services are also available to assist you in the development of procedures and templates, so you can fully utilize ProSystem fx Engagement.

For more information about Training & Consulting Services, contact our Customer Training department at (310) 802-8310.
