

2019 EMPLOYEE BENEFIT PLANS OVERVIEW FOR KNOWLEDGE COACH USERS

PURPOSE

This document is published for the purpose of communicating, to users of the toolset, updates and enhancements included in the current version. This document is not, and should not be used as an audit program to update the audit documentation of an engagement started in a previous version of this product.

WORKPAPER UPDATES AND ROLL FORWARD NOTES

General Roll Forward Note:

You must be the current editor of all Knowledge Coach workpapers to update to the latest content, and you must be the current editor upon opening the updated workpaper for the first time to ensure you see the updated workpaper.

The **2019 Knowledge-Based Audits of Employee Benefit Plans** have been updated to help auditors conduct efficient and effective audit engagements in accordance with U.S. GAAS and to take into account the latest literature, standards, and guidance, including AICPA Statement on Auditing Standards (SAS) No. 133, Auditor *Involvement with Exempt Offering Documents*. The 2019 tools include links to detailed analysis related to the steps and processes discussed in the workpapers. Many new tips and examples have been incorporated. Also included are revised financial statement disclosures checklists that provide a centralized resource of the required and recommended U.S. GAAP disclosures and key presentation items currently in effect, using the style referencing under the FASB Accounting Standards Codification™.

The 2019 edition of *Knowledge-Based Audits of Employee Benefit Plans* includes the following updates:

Knowledge-Based Audit Documents (KBAs)

Important Information about Updating to the 2018/19 KC titles posted after July 2018

Beginning with the 2018 KBA Commercial title, there are significant changes to the KBA 40X ALC series workpapers that firms should review prior to content update through roll forward or Update Knowledge Coach Workpapers. Many of the activity controls have changed and will automatically reset on content update. Therefore, if you do plan to use the update knowledge coach content feature, consider publishing these workpapers before you update and re-evaluate your responses to the changed content. These changes were made to better describe true control objectives as opposed to control activities. We feel these changes make the tools more closely align with how internal control environments work and therefore easier to use and understand.

Type of Change	Description of Change	Location	Based on Standard Y/N	Standard Reference	Roll Forward and Update Content Considerations
KBA-101 Overall Audit Strategy					
Added	Under “Audit Coverage” added a new step: Have we determined that we will be able to obtain sufficient appropriate audit evidence through our work (i.e., the group engagement team’s work) or through the use of the component auditor’s work to act as the auditor of the group financial statements?	Procedure Step	Clarification		

Type of Change	Description of Change	Location	Based on Standard Y/N	Standard Reference	Roll Forward and Update Content Considerations
Modified	Under “Use of Other Information”, modified first column in the first table to read as follows: Audit Evidence Obtained in Previous Audits or Other Engagements	Table	Clarification		Column will retain on roll forward if user has set to keep on roll forward.
Modified	Under “Use of Other Information”, modified step 5 to read as follows: Has the auditor prepared documentation to address potential independence considerations in accordance with ET Section 1.295, Nonattest Services, of the AICPA Code of Professional Conduct and documented our discussion with management regarding the services to be performed and potential independence concerns, if applicable? The auditor may use <i>AID-201 Nonattest Services Independence Checklist</i> to document these independence considerations.	Table	Clarification		Column will retain on roll forward if user has set to keep on roll forward.
Modified	Under “Factors that Will Determine the focus of the Audit Team’s Efforts”, modified step 4 which now reads as follows: The following represents the selection of the audit team (i.e., individual with appropriate knowledge, competency, and skills) and the assignment of audit work to team members:	Table	Clarification		Column will retain on roll forward if user has set to keep on roll forward.

These presentation and disclosure requirements are effective for annual periods ending after December 15, 2016, and interim periods within annual periods beginning after December 15, 2016. Early adoption is permitted for annual or interim reporting periods for which the financial statements have not previously been issued. (ASC 205-40-65-1)</p> <p data-bbox="239 922 1310 1409">Prior to the issuance of ASU No. 2014-15, there was no guidance in U.S. GAAP about management’s responsibility to evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern or to provide related disclosures in notes to financial statements. U.S. auditing standards and federal securities laws require that an auditor evaluate whether there is substantial doubt about an entity’s ability to continue as a going concern for a reasonable period of time not to exceed one year beyond the date of the financial statements being audited. Auditing standards also require auditors to consider the possible financial statement effects, including the adequacy of disclosures on uncertainties about the entity’s ability to continue as a going concern for a reasonable period of time pursuant to AU-C Section 570, <i>The Auditor’s Consideration of an Entity’s Ability to Continue as a Going Concern</i>, or the PCAOB’s AS 2415, <i>Consideration of an Entity’s Ability to Continue as a Going Concern</i>. The SEC also has guidance on disclosures that it expects from an entity when an auditor’s report includes an explanatory paragraph that reflects substantial doubt about an entity’s ability to continue as a going concern for a reasonable period of time (The Codification of Financial Reporting Policies, Section 607.02). Therefore, prior to the effective date of ASU No. 2014-15 and for entities that have not elected early adoption of ASU No. 2014-15, the disclosure requirements in items 7 and 8 below should be followed.</p>

	<i>Note:</i> If a proportion of a derivative instrument is designated and qualifying as a hedging instrument and a proportion is not designated and qualifying as a hedging instrument, an entity should allocate the related amounts to the appropriate categories within the disclosure tables.	
Added	Has the following been disclosed in tabular format for items designated and qualifying as hedged items in fair value hedges:	
Added	The carrying amount of hedged assets and liabilities recognized in the balance sheet?	
Added	The cumulative amount of fair value hedging adjustments to hedged assets and liabilities included in the carrying amount of the hedged assets and liabilities recognized in the balance sheet?	
Added	The line item in the balance sheet that includes the hedged assets and liabilities?	
Added	The cumulative amount of fair value hedging adjustments remaining for any hedged assets and liabilities for which hedge accounting has been discontinued?	
Added	Has the following been disclosed separately for each line item in the balance sheet that includes hedged assets and liabilities for fair value hedges that involve hedging relationships designated under the last-of-layer method in accordance with ASC paragraph 815-20-25-12A:	
Added	The amortized cost basis of the closed portfolio(s) of prepayable financial assets or the beneficial interest(s)?	
Added	The amount that represents the hedged item(s) (i.e., the designated last of layer)?	
Added	The basis adjustment associated with the hedged item(s) (i.e., the designated last of layer)? <i>Note:</i> For hedging relationships designated under the last-of-layer method, an entity may need to allocate the outstanding basis adjustment to meet the objectives of disclosure requirements in other ASC Topics. For purposes of those disclosure requirements, the entity may allocate the basis adjustment on an individual asset basis or on a portfolio basis using a systematic and rational method. Added	Have the following transitional disclosures related to the adoption of ASU No. 2017-12 been made in each interim and annual period in the fiscal period of adoption (ASC 815-20-65-3):	
Added	The nature of and reason for the change in accounting principle?	
Added	The cumulative effect of the change on the opening balance of each affected component of equity or net assets in the balance sheet as of the date of adoption?	
Derivatives and Hedging (ASC 815) Cash Flow Hedges		
Added	<i>Note:</i> The presentation and disclosure requirements in items 1 through 5 below have been superseded by the amendments in ASU No. 2017-12, <i>Derivatives and Hedging (Topic 815): Targeted Improvements to Accounting for Hedging Activities</i> , which is effective for public business entities for fiscal years beginning after December 15, 2018, and interim periods within those fiscal years. For all other entities, the requirements are effective for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. Thereafter, the presentation and disclosure requirements in items 6 through 9 below should be followed. Early adoption is permitted, including adoption in an interim period. (ASC 815-20-65-3)	
Added	Has the net gain or loss on derivative instruments designated and qualifying as cash flow hedging instruments that are reported in comprehensive income been displayed as a separate classification within other comprehensive income? (ASC 815-30-45-1)	
Added	Has the total amount reported in other comprehensive income (as determined in accordance with paragraph 815-30-35-3(b)) for the hedging relationship first been allocated to each of the forecasted transactions (hedged items) within the hedging relationship to measure the amount of other comprehensive income to be reclassified into earnings in the coming 12 months if multiple cash flow exposures are designated as the hedged items for a single derivative instrument? (ASC 815-30-45-2)	
Added	<p>Have the estimated amounts to be reclassified into earnings in the coming 12 months been summed after the amount reported in other comprehensive income has been allocated to each of the forecasted transactions within the hedging relationship? (ASC 815-30-45-3)</p> <p><i>Note:</i> The allocation method used above should be applied consistently and should consider any cumulative gain or loss on the derivative instrument that has been recognized in earnings as hedge ineffectiveness.</p>	
Added	Have the following disclosures been made for derivative instruments designated and qualifying as cash flow hedging instruments and for the related hedged transactions, for every annual and interim reporting period for which a balance sheet and an income statement is presented (ASC 815-30-50-1):	
Added	A description of the transactions or other events that will result in the reclassification into earnings of gains and losses that are reported in accumulated other comprehensive income?

Added	The estimated net amount of the existing gains or losses that are reported in accumulated other comprehensive income at the reporting date that is expected to be reclassified into earnings within the next 12 months?	
Added	The maximum length of time over which the entity is hedging its exposure to the variability in future cash flows for forecasted transactions excluding those forecasted transactions related to the payment of variable interest on existing financial instruments?	
Added	Have the following items been separately disclosed as part of the disclosures of accumulated other comprehensive income (ASC 815-30-50-2):	
Added	The beginning and ending accumulated derivative instrument gain or loss?	
Added	The related net change associated with current period hedging transactions?	
Added	The net amount of any reclassification into earnings?	
Added	The difference between the change in fair value of an excluded component and the initial value of that excluded component recognized in earnings under a systematic and rational method in accordance with paragraph 815-20-25-83A?	
Added	Has the total amount reported in other comprehensive income (as determined in accordance with paragraph 815-30-35-3(b)) for the hedging relationship first been allocated to each of the forecasted transactions (hedged items) within the hedging relationship to measure the amount of other comprehensive income to be reclassified into earnings in the coming 12 months if multiple cash flow exposures are designated as the hedged items for a single derivative instrument? (ASC 815-30-50-5)	
Added	Has the estimated amounts to be reclassified into earnings in the coming 12 months been summed after the amount reported in other comprehensive income has been allocated to each of the forecasted transactions within the hedging relationship? (ASC 815-30-50-6) <i>Note: The allocation method used above should be applied consistently.</i>

Leases (ASC 842)		
Overall		
Added	The SEC staff would not object to a public business entity that otherwise would not meet the definition of a public business entity except for a requirement to include or the inclusion of its financial statements or financial information in another entity’s filing with the SEC adopting ASC Topic 842 for fiscal years beginning after December 15, 2019, and interim periods within fiscal years beginning after December 15, 2020. However, a public business entity that otherwise would not meet the definition of a public business entity except for a requirement to include or the inclusion of its financial statements or financial information in another entity’s filing with the SEC may still elect to adopt ASC Topic 842 according to the public business entity effective dates discussed above. (ASC 842-10-S65-1)	
Modified	An entity also may elect a practical expedient to not assess whether existing or expired land easements that were not previously accounted for as leases under ASC Topic 840 are or contain a lease under ASC Topic 842. For purposes of this item 5, a land easement (also commonly referred to as a right of way) refers to a right to use, access, or cross another entity’s land for a specified purpose. This practical expedient should be applied consistently by an entity to all its existing and expired land easements that were not previously accounted for as leases under. This practical expedient may be elected separately or in conjunction with either one or both of the practical	Will reset on roll forward

	expedients in items 4 and 6. An entity that elects this practical expedient for existing or expired land easements should apply ASC Topic 842 to land easements entered into (or modified) on or after the date that the entity first applies ASC Topic 842. An entity that previously accounted for existing or expired land easements as leases under ASC Topic 840 above is not eligible for this practical expedient for those land easements.	
Added	An entity also may elect a practical expedient, which must be applied consistently by an entity to all of its leases (including those for which the entity is a lessee or a lessor) to use hindsight in determining the lease term (i.e., when considering lessee options to extend or terminate the lease and to purchase the underlying asset) and in assessing impairment of the entity's right-of-use assets. This practical expedient may be elected separately or in conjunction with either one or both of the practical expedients in items 4 and 5 above.	
Modified	If an entity uses one or more of the practical expedients in items 4 through 6 above, it should disclose that fact.

Related workpapers are Knowledge Coach Word workpapers where information flows in or out of tables within the workpaper. Some of these related workpapers are Foundation workpapers or associated workpapers.

Foundation Workpapers include most of the Communication Hub workpapers, which are central to the Knowledge-Based Audit Methodology used by the Knowledge Coach titles. Associated workpapers require you to associate them with custom values, such as audit areas, specialists, service organizations, and other items. Workpapers require an association when you need to have more than one instance of a particular Knowledge Coach workpaper in your binder for each type of item to which the workpaper is related. Making this association allows Knowledge Coach information to flow properly between workpapers.
