

2020 COMMON INTEREST REALTY ASSOCIATIONS OVERVIEW FOR KNOWLEDGE COACH USERS

PURPOSE

This document is published for the purpose of communicating, to users of the toolset, updates and enhancements included in the current version. This document is not, and should not be used as an audit program to update the audit documentation of an engagement started in a previous version of this product.

WORKPAPER UPDATES AND ROLL FORWARD NOTES

General Roll Forward Note:

You must be the current editor of all Knowledge Coach workpapers to update to the latest content, and you must be the current editor upon opening the updated workpaper for the first time to ensure you see the updated workpaper.

The **2019 Knowledge-Based Audits of Common Interest Realty Associations** have been updated to help auditors conduct efficient and effective audit engagements in accordance with U.S. GAAS and is current through the most recent auditing standards, including AICPA Statement on Auditing Standards (SAS) No. 134, *Auditor Reporting and Amendments, Including Amendments Addressing Disclosures in the Audit of Financial Statements*, and SAS No. 135, *Omnibus Statement on Auditing Standards – 2019* which do not provide for early implementation. The 2019-2020 tools include links to detailed analysis related to the steps and processes discussed in the workpapers. Many new tips and examples have been incorporated. Also included are revised financial statement disclosures checklists that provide a centralized resource of the required and recommended U.S. GAAP disclosures and key presentation items currently in effect, using the style referencing under the FASB Accounting Standards Codification™.

The 2020 edition of *Knowledge-Based Audits of Common Interest Realty Associations* includes the following updates:

Roll Forward Note: All Noncomplex forms (KBA-201N, KBA-302N, and KBA-401N) have become obsolete and combined with the prior Complex documents. If you have used a Noncomplex document in your prior engagement, before rolling that file forward, you must add the Complex document to your engagement binder to retain the data from the Noncomplex document, then remove these workpapers from the prior year binder after you have rolled the binder forward.

If your binder has already been finalized and you don't want to unfinalize the binder to insert the Complex document before you roll forward from the 2019 version, you are able to make a copy of your finalized binder, insert the applicable Complex documents, then roll forward the copied binder to the 2020 title version. After roll forward remember to delete the copied prior year binder from your file room. Doing this will retain the data into the 2020 combined versions.

Alternatively copy and paste the data from the prior year Noncomplex document, from the prior year binder, after you roll forward into the current combined versions. The Noncomplex document will roll forward as an obsolete workpaper with no data and will need to be removed after you have rolled forward your binder. You will need to refer to your prior year binder for data in the Noncomplex document.

For the Update Knowledge Coach Content option, you should insert the complex version of the workpaper prior to updating; this will retain information from the now obsolete noncomplex version. We recommend publishing the noncomplex versions prior to selecting the Update Knowledge Coach Content option so you have access to the data after updating, as the noncomplex version will be obsolete.

Knowledge-Based Audit Documents (KBAs)

Type of Change	Description of Change	Location	Based on Standard Y/N	Standard Reference	Roll Forward and Update Content Considerations
KBA-101 Overall Audit Strategy					
Modify	Added practice point regarding audit quality indicators	Instructions	Enhancement		
Modify	Under “Document the other services our firm performs for this entity?” modified column header from “Firm Personnel Responsible” to “Firm Personnel Overseeing the Service” to match <i>AID-201</i> . New flow of column, “Nature of Other Services” to <i>AID-201</i> column, “Description of Service” and column “Firm Personnel Overseeing the Service” will flow to <i>AID-201</i> .	Table	Improved Workflow		Step will retain on roll forward with default settings. In <i>AID-201</i> the new flows will be new rows in <i>AID-201</i> and the prior user entered rows in <i>AID-201</i> will be retained on roll forward if user selects to keep all responses on roll forward. The user will need to combine these or modify as applicable.
Modify	Under “Section II: Reporting Objectives, Timing of the audit, and Nature of Communications with Management and those Charged with Governance” added “Physical inspection of assets” to the items listed in the table in step 5.	Table	Enhancement		
KBA-102 Engagement Completion Document

				<i>Auditing Standards - 2019</i>	
Added	Added the following inquiry to all sections: Are you aware of any cybersecurity incidents, either from unintentional events or deliberate actions by insiders or third parties, affecting the entity?	Procedures	Enhancement		
KBA-400 Scoping and Mapping of Significant Account Balances, Classes of Transactions, and Disclosures					
Added	Added new table for findings. All items identified will now flow into this table just like they did in 2018 Commercial title into KBA-103 . The user will select in this table whether they will flow the item identified to KBA-103 or not. This will cut down on duplicate flow to KBA-103 and the user can group the flow to KBA-103 .				On roll forward any items identified in the prior binder will flow into this new table and the 2 nd column, “Flow to KBA-103 ” will be auto populated as “Yes”. This will be done so the user will not lose any flow to KBA-103 . The user will need to then decide which items will flow or not flow to KBA-103 by changing the response in column 2.
Modify	Under “Table 1: Scoping and Mapping” new audit area “Business Combinations” will be mapped to KBA-411 .	Procedures	Improved Workflow		
Modify	New Potential Error Diagnostic that will appear if the user has identified a specific risk in the Risk Pane for a specific audit area but hasn’t identified that audit area in Table 1 has having a “Significant or Fraud Risk”	Diagnostic	Enhancement		
KBA-401 Understanding Entity-Level Controls					
Modify	Combined KBA-401 and KBA-401N giving the auditor the option to memo or complete the detailed table for each section. User will need to answer Tailoring Question under each section if the user will document the consideration in memo format or complete the detailed table.	Program	Improved Workflow		Information from KBA-401 will retain on roll forward if the user uses the default roll forward settings except column 7, “Do Compensating Controls Adequately Reduce the Risk of Material Misstatement Created by the Ineffective Design and Implementation of Identified Controls” due to the content changes in this column. To retain all the user would need to select to keep all responses on roll forward.

Type of Change	Description of Change	Location	Based on Standard Y/N	Standard Reference	Roll Forward and Update Content Considerations
					If the user used KBA-401N in the prior year then each relevant principle table and the conclusion section will retain on roll forward from KBA-401N if one of the first two options in the Roll Forward Note at the top of this file is performed. The “Overall Assessment of the Entity’s System of Internal Control” table will not retain on roll forward. Please see Roll Forward Note at the top of this file for further information.
Modify	<p>Modified headers and related instructions regarding compensating controls.</p> <p><i>Column 4 renamed to “Describe the Established Controls Supporting the Relevant Principles or Point of Focus</i></p> <p><i>Column 6 renamed to “If Column 5 Is “No,” Describe Compensating Controls, If Any</i></p> <p><i>Column 7 renamed to “Do Compensating Controls Adequately Reduce the Risk of Material Misstatement Created by the Ineffective Design and Implementation of Identified Controls?”</i></p> <p><i>Column 8 renamed to “If Column 5 and Column 7 Are, “No” Describe the Risks of Material Misstatement”</i></p> <p><i>Column 10 renamed to “If Column 2, 3, 5, 7, or 9 is “No,” Describe the Deficiency”</i></p>	Table	Clarification		Column 7 will reset on roll forward due to content changes. All other columns will retain on roll forward.
Modify	Removed Columns “Change from Previous Year”, “Procedures We Performed to Gain Our Understanding”, and “Workpaper Reference/Comments” and replaced with text boxes at the end of each section.	Procedures	Improved Workflow		These new tables will retain on roll forward by default.

Removed	When actual tax deductions for compensation expense taken by an entity on its tax return for share-based payment arrangements differ in amounts and timing from those recorded in the financial statements (<u>ASC 718-740-45-1 through 45-4</u>):	
Removed	If a deduction reported on a tax return for an award of equity instruments exceeds the cumulative compensation cost for those instruments recognized for financial reporting, has any resulting realized tax benefit that exceeds the previously recognized deferred tax asset for those instruments (i.e., the excess tax benefit) been recognized as additional paid-in capital? (<i>Note:</i> However, an excess of a realized tax benefit for an award over the deferred tax asset for that award should be recognized in the income statement to the extent that the excess stems from a reason other than changes in the fair value of an entity's shares between the measurement date for accounting purposes and a later measurement date for tax purposes.)	
Removed	Has the remaining balance, if any, of the write-off of a deferred tax asset related to a tax deficiency not offset against additional paid-in capital been recognized in the income statement?	
Removed	For employee stock ownership plans (ESOP):	
Removed	If the cost of shares committed to be released in an ESOP is greater than their fair value, has the tax effect of the amount by which the deductible expense exceeds the book expense been credited to stockholders' equity? (<u>ASC 718-740-45-5</u>)	
Removed	If the cost of shares committed to be released in an ESOP is less than their fair value, has the tax effect of the amount by which the book expense exceeds the deductible expense been charged to stockholders' equity (to the extent of previous credits to stockholders' equity related to cost exceeding fair value of the ESOP shares committed to be released in previous periods)? (<u>ASC 718-740-45-6</u>)	
Removed	Have the tax benefit of tax-deductible dividends on allocated ESOP shares been recorded as a reduction of income tax expense allocated to continuing operations and the tax benefit of tax-deductible dividends on unallocated ESOP shares that are charged to retained earnings been credited to stockholders' equity? (<u>ASC 718-740-45-7</u>)	
Removed	For tax benefits of dividends on share-based payment awards to employees:	
Removed	For any nonvested equity shares, nonvested equity share units, or outstanding equity share options:	
Removed	Have realized income tax benefits from dividends (or dividend equivalents) that are charged to retained earnings and are paid to grantees been recognized as an increase to additional paid-in capital? (<u>ASC 718-740-45-8</u>)	
Removed	Has the amount recognized in additional paid-in capital been included in the pool of excess tax benefits available to absorb tax deficiencies on share-based payment awards? (<u>ASC 718-740-45-9</u>)	
Removed	If dividends (or dividend equivalents) paid to employees result in a tax deduction prior to the actual realization of the related tax benefit (e.g., the employer has a net operating loss carryforward), have the income tax benefits of those dividends <i>not</i> been recognized until the deduction reduces income taxes payable? (<u>ASC 718-740-45-10</u>) (<i>Note:</i> The unrealized income tax benefits should be excluded from the pool of excess tax benefits available to absorb potential future tax deficiencies on share-based payment awards.)

Derivatives and Hedging (ASC 815) Overall		
Modified	For a fair value hedge of interest rate risk existing as of the date of adoption, an entity may modify the measurement methodology for a hedged item in accordance with either <u>ASC paragraph 815-20-25-6B</u> or <u>ASC paragraph 815-25-35-13</u> without dedesignation of the hedging relationship. The cumulative basis adjustment carried forward should be adjusted to an amount that reflects what the cumulative basis adjustment would have been at the initial application date had the modified measurement methodology been used in all past periods in which the hedging relationship was outstanding. When making this election, the benchmark rate component of the contractual coupon cash flows should be determined as of the hedging relationship’s original inception date. The cumulative effect of applying this election should be recognized as an adjustment to the basis adjustment of the hedged item recognized on the balance sheet with a corresponding adjustment to the opening balance of retained earnings as of the initial application date.	Step will retain on roll forward.
Modified	<p>For the fair value hedges of interest rate risk for which an entity modifies the measurement methodology for the hedged item based on the benchmark rate component of the contractual coupon cash flows in accordance with item 1 above, an entity may elect to rebalance the hedging relationship through any of the following approaches, including any combination of those approaches:</p> <ul style="list-style-type: none"> i) Increasing the designated notional amount of the hedging instrument. ii) Decreasing the designated notional amount of the hedging instrument. iii) Increasing the designated proportion of the hedged item. iv) Decreasing the designated proportion of the hedged item. <p>An entity may not add a new hedging instrument or hedged item to an existing hedging relationship. Type of Change	Description of Change	Location	Based on Standard Y/N	Standard Reference	Roll Forward Considerations
	<p>Practice Point: Accounting Standards Update (ASU) No. 2016-01, <i>Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities</i>, excludes equity method investments from its scope for equity method investments with readily determinable fair values. However, for equity investments <u>without</u> readily determinable fair values, ASU No. 2016-01 eliminates the cost method of accounting previously allowed in ASC Subtopic 325-20, <i>Investments—Other—Cost Method Investments</i>. Rather, under ASU No. 2016-01, an entity has the option to measure these equity investments either at: (1) cost minus impairment, if any, plus or minus changes resulting from observable price changes in orderly transactions for the identical or a similar investment of the same issuer, or (2) fair value. This amendment simplifies the impairment assessment of equity investments without readily determinable fair values by requiring a qualitative assessment to identify impairment (similar to the qualitative assessment for long-lived assets, goodwill, and indefinite-lived intangible assets). When a qualitative assessment indicates that impairment exists, an entity is required to measure the equity investment at fair value and recognize an impairment loss in net income. The impairment loss is calculated as the difference between the fair value of the investment and its carrying amount.</p> <p>We evaluated whether management has properly accounted for the investments in closely held corporations and partnerships using the cost method (cost, minus impairment, or fair value if ASU No 2016-01 has been adopted) or the equity method of accounting, as appropriate, in accordance with the applicable financial reporting framework.</p>				
Added	<p>New practice point under step, “Joint Ventures – Detailed Analysis as follows:</p> <p>Practice Point: Investments in joint ventures are included within the scope of Accounting Standards Update (ASU) No. 2016-01, <i>Financial Instruments—Overall (Subtopic 825-10): Recognition and Measurement of Financial Assets and Financial Liabilities</i>. Therefore, after the date of adoption of ASU No. 2016-01, investments in unincorporated joint ventures are accounted for as equity investments (under Topic 321) and should be recorded at (1) fair value, or (2) at cost when the fair value is not readily determinable (minus impairment, if any, unless the practical expedient applies and has been elected (i.e., the net asset value practical expedient)). Corporate joint ventures, other than subsidiaries, are usually accounted for as equity investments (under Topic 321) or the equity method (under Topic 323).</p>	Program Steps	ASU 2016-01

RELATED, FOUNDATIONS AND ASSOCIATION WORKPAPERS FOR THIS TITLE

Related workpapers are Knowledge Coach Word workpapers where information flows in or out of tables within the workpaper. Some of these related workpapers are Foundation workpapers or associated workpapers.

Foundation Workpapers include most of the Communication Hub workpapers, which are central to the Knowledge-Based Audit Methodology used by the Knowledge Coach titles.

Associated workpapers require you to associate them with custom values, such as audit areas, specialists, service organizations, and other items. Workpapers require an association when you need to have more than one instance of a particular Knowledge Coach workpaper in your binder for each type of item to which the workpaper is related. Making this association allows Knowledge Coach information to flow properly between workpapers.
