CCH ProSystem *fx* PDFlyer (Standalone) Installation Instructions

For detailed installation instructions, please refer to the CCH ProSystem *fx* PDFlyer (Standalone) 10.0 User Guide. Brief instructions have been included below for your reference.

CCH ProSystem *fx* PDFlyer Server Installation

If CCH ProSystem *fx* PDFlyer Server is currently installed, manually remove the previous version. Install CCH ProSystem *fx* PDFlyer Server to a network drive or shared local drive that is available to all workstations using CCH ProSystem *fx* PDFlyer.

1. Go to https://support.cch.com/updates/pdflyer-standalone/default.aspx to download **PDFlyer Standalone.zip**.
2. Extract and double-click **PDFlyer Server.exe**.
3. Click **Next**.
4. Review the License Agreement and accept the terms of the agreement.
5. Click **Next**.
6. To change the destination folder where PDFlyer Server will be installed, click **Browse** and navigate to or enter a new location.
7. Click **Next**.
8. Choose the appropriate permission key option.
9. Click **Next**.
10. Click **Install**. Wait for the installation to complete.
11. Click **Finish**.

CCH ProSystem *fx* PDFlyer Installation

Install CCH ProSystem *fx* PDFlyer on workstations licensed for Adobe Acrobat Standard or Professional, version X or higher. CCH ProSystem *fx* PDFlyer will not run with Adobe Reader.

Microsoft .NET Framework 2.0 and 4.0 must be installed on each workstation running PDFlyer. If you have not already installed .NET Framework 2.0 and 4.0, they will be installed for you during installation.

1. Browse to \\<computer name>\Workstation and double-click **PDFlyer.exe**.
2. Click **Next**.
3. Review the License Agreement and accept the terms of the agreement.
4. Click **Next**.
5. To change the destination folder where PDFlyer will be installed, click **Browse** and navigate to or enter a new location.

6. Click **Next**.
7. Click **Install**. Wait for the installation to complete.
8. Click **Finish**.
